WHICH COMPUTING DEGREE IS RIGHT FOR ME?

A handy guide to choosing the best computing program for you!

REGIS UNIVERSITY

I WANT TO...

I WANT TO... Build, design and maintain computer systems

I WANT TO... Use technology to devise creative solutions to complex problems

---

I WANT TO... Manage networks and websites

I WANT TO... Protect private and sensitive data where it matters most

I WANT TO... Design and build software

I WANT TO... Enable businesses to make data-driven decisions

B.S. Information Technology
As information technology continues to grow and evolve, organizations and businesses will always need systems-savvy professionals who can solve problems and keep things running smoothly.

B.S. Cybersecurity
Digital safety and security is paramount — a degree in cybersecurity from Regis will prepare you to take your place on the front lines of the fight to keep sensitive and private data safe.

B.S. Computer Science
With a degree in computer science from Regis, you won't just study theory and practice — you'll emerge as a proficient software developer with the ability to implement efficient and elegant computational solutions.

B.S. Computer Information Systems
CIS professionals are an increasingly essential part of any enterprise, using data analysis to inform business decisions and create operational efficiencies at all levels.
