learners becoming leaders in the Jesuit Catholic tradition

Donate your Old Laptop: Help Rebuild African Higher Ed Institutions

Regis University's School of Computer & Information Sciences, in conjunction with The Center for Global Health at the University of Colorado Denver are jointly sponsoring a laptop donation program. Your used laptop can greatly assist medical faculty, students, and rural healthcare workers. The laptops are used to provide Internet access to the latest medical training and e-learning materials. All you have to do is drop off or ship your used laptop to the School of Computer & Information Sciences. The laptop will be thoroughly erased, reloaded with open source software, and properly packaged for shipping to Africa. Your gifts are tax deductible and a receipt will be provided to you for tax purposes.
