

CN 478 Management of Enterprise Networks Challenge Exam – Study Guide

Instructions:

This exam is designed to test your knowledge and understanding of the concepts outlined in the Regis CN 478 course guide and your ability to apply these concepts to the real world.

The Challenge Exam has some tips on how to complete the exam. Remember that you have five days to complete this exam.

Text:

Burke, J. (2004). *Network Management Concepts & Practices*. New York: Prentice Hall/Pearson.

Sources;

Reference the Challenge Exam for additional sources

1. This exam requires you to design a simple network with Network Management protocols, including the topology
2. Describe in a paper the design, components, and protocols used, and the reason why
3. Use APA format

APA Access:

See Challenge Exam for Process

Evaluation:

This exam is worth a maximum of 100 points. You are expected to achieve a minimum of 75% of the maximum possible points (25% of grade is the network design, and 75% of grade is the paper).
