

February 2008

SOA RoundTable
sponsored by the IEEE Denver Section Computer Society-
All Welcome

The third bimonthly (every two months) meeting of the Service-oriented Architecture (SOA) Roundtable will be held in March on the Regis University campus.

Date: Thursday, March 20, 2008

Time: 7:00pm

Location: Adult Learning Center, Room 303

A map to the Regis University campus is at <http://www.regis.edu/regis.asp?sctn=loc&p1=lc>

A parking map for the campus is at
<http://www.regis.edu/regis.asp?sctn=loc&p1=lc&p2=parking>

Come prepared to discuss your experiences planning, transitioning, or working in an SOA development environment!

--- SOA Round Table Discussion Objectives ---

(liberally taken from "Understanding SOA with Web Services" by Eric Newcomer and Greg Lomow)

- . Why SOA has emerged as the dominant approach to enterprise integration
- . How and why Web services provide the ideal foundation for SOA
- . Underlying concepts shared by all SOAs: governance, service contracts, Web services platforms, and service-oriented development
- . Implementing service-level communications, discovery, security, data handling, transaction management, and system management.
- . Using SOA to deliver application interoperability, multichannel client access, and business process management.
- . Practical tutorials on WS-Security, WS-Reliable Messaging, WS-Atomic Transactions, WS-Composite Application Framework, WS-Addressing, WS-Policy, and WS-BPEL.
