

Regis College Travel Learning – Approved Third Party Providers

1. AIFS Partnership Programs (website: <http://www.aifspartnerships.com/>):

AIFS Partnership Programs creates formal arrangements between educational institutions and AIFS in which AIFS provides logistical support, student services, classrooms, housing facilities and cultural activities at a location abroad, plus student medical and fee refund insurances and over \$50 million of liability insurance for the U.S. college/university. This enables institutions to conduct their own academic programs abroad at minimal expense. Faculty from the home institution teach their curriculum abroad (with optional use of local adjunct professors), and the institution maintains academic control over the program and retains tuition income. Students pay a non-academic program fee directly to AIFS. Since 1964, AIFS has been at the forefront of international education and study abroad, with a commitment to high academic standards, health and safety practices, and a dedication to supporting students in order to maximize their time abroad.
