WHAT IS YOUR CREDIT TRANSFER POLICY?

Our RN-BSN block transfer policy is designed to help you save time and money so RNs with an Associate’s degree from a regionally accredited program are given the maximum amount of credit possible toward the BSN degree. But no matter when you became an RN, your credits won’t expire with Regis.

Applicants with an Associate’s Degree in nursing are eligible to receive up to 90 semester hours of awarded credit, leaving only 30 semester hours to complete the RN/BSN program at Regis. Each transfer situation is unique, so send us your transcripts, and we can provide you with an unofficial evaluation of your academic coursework.

We also provide a free unofficial transcript evaluation that takes some of the guesswork out of transfer requirements.

Call Admissions at 303.458.4344 for more information about getting your transcripts evaluated to determine if you are eligible for the Block Transfer Policy. Admissions Counselors can give a preliminary review, however all transcripts need to go through our on campus Transfer Evaluation Center for final determination and can take up to two weeks.
