Thank you for participating in this study. This form describes the background and purpose of this investigation in more detail. **This is an ongoing project so please do not share this information with others who may participate in the future.**

Although the cover story of this study explained that the purpose was to investigate how personality traits are related to health behaviors, the primary purpose of this study was to investigate whether or not extroverted individuals engaged in more risky health behaviors than did introverted individuals. For more information about this topic, please see: *(Provide links to additional information relevant to your research topic, if applicable.)*

If you have any additional questions about the study or if you would like to receive a copy of the results from this study when they become available, please contact <<Professor Name, Phone, Email>>.

If you have questions about your rights as a research participant or concerns or complaints about the research, you may contact the Regis University Institutional Review Board (IRB), which is concerned with the protection of volunteers in research projects. You may reach the board office by writing irb@regis.edu.

We appreciate that you took the time to participate in this study. You will receive 6 research credits for your participation.

Thanks again for your participation!
