

Guidelines for Filming at Regis University

In order to film on the Regis University campus, applicants must submit a film permit and receive approval from the University. Please note that all such activity on the campus requires approval before filming because certain locations may be restricted, either permanently or temporarily. A Regis University Film, Video and Television Permit is required to film on campus.

The University Brand Marketing (UBM) department will review film permit applications. Note that even though an application may be approved, that does not guarantee room availability. Before approving the permit, UBM will contact the Physical Plant Department to notify them of the nature of the shoot and ensure that filming will not conflict with scheduled maintenance activities. Parking permits will be issued to the applicant (if needed). Please note that parking permits only grant permission to park and does not guarantee a parking space. UBM will submit parking approval and email passes directly to the applicant. Because approval of the request can involve obtaining permission from several departments, applications for filming should be submitted as early as possible, ideally two to three weeks in advance.

All persons involved in the filming must adhere to the general policies outlined in the Regis University Student Handbook, and abide by the codes of conduct described therein.

Regis University requires a copy of the project upon completion for UBM records.

PERMIT REQUIREMENTS

Filming on campus is permitted only if it does not interfere with normal University business and/or previously scheduled events. When completing the application, applicants will be required to submit a general overview of the film, specific information on what will actually be filmed on the Regis campus, and a list of the equipment, additional staff, or any other additional requirements. Please note that the following subject matter, while it may be included in the film itself, may not be filmed on the Regis campus:

- 1) Graphic violence
- 2) Nudity or partial nudity
- 3) Scenes that are overtly sexual in nature
- 4) Offensive language

- 5) In essence, anything that would generate an “R” rating or that is contrary to Regis’ identity as a Catholic university.

Filming is prohibited in some areas of the campus, i.e. the chapel, science labs, and private offices. Occasional exceptions are made with the express permission of the designated supervisor of that area, and if all other conditions can be met to insure the location remains intact.

Approval of a request will be contingent upon the producer’s agreement to ensure that there will be minimal impact to normal University business, and integrity of the filming area will remain intact. Once the application is approved, the production must follow the schedule as submitted. Changes or cancellations to filming must be submitted as soon as possible to University Brand Marketing.

IDENTIFICATION of the UNIVERSITY

Any use of the names, marks, logos or trademarks of Regis University must be submitted to University Brand Marketing in advance for approval. Please note that use of footage shot at Regis University for stock footage is not allowed.
