Fitness Center Policies & Procedures

Dedication to a Safe Environment

- The goal of Wellness and Recreation (W&R) staff is to ensure all patrons have a safe environment in which to recreate. Risk management is a part of our program which has to be implemented on a daily basis to ensure the safety of our patrons and staff.
- In keeping with the mission statement and related goals for creating a welcoming, safe, and fun environment patrons will not be allowed to express verbal or written profanity while in the Fitness Center or participating in Wellness and Recreation programs.
- The following policies and procedures are designed for the protection of our members, employees and facilities. Please observe all posted signs and directions given by W&R staff. The staff will gladly explain the rationale behind Fitness Center policies and procedures. Violations may result in removal from the facility and/or loss of W&R privileges.
- Wellness and Recreation reserves the right to refuse access or service to any individual who refuses to follow the policies and procedures detailed in this document and/or is deemed a detriment to patrons/staff or physical property within the Fitness Center.
- Fitness Center patrons are reminded that the Regis Student Code of Conduct is applicable in all Wellness and Recreation facilities and programs. Failure to comply will result in referral to the Student Conduct Office.

Health & Safety Disclaimer: Over Exercising

- The American College of Sports Medicine (ACSM) guidelines for healthy aerobic activity recommends that individuals should perform cardiovascular exercise 3-5 days per week maintaining appropriate exercise intensity for 30-45 minutes also including gradual warm up and cool down periods lasting approximately 5-10 minutes each. Additionally, ACSM recommends that individuals engage in strength training 2-3 days per week.
- Industry trends and research surrounding inappropriate exercise behaviors have warranted increased concern among campus recreation professionals. Excessive or over-exercising alone has been shown to be a factor that can increase the likelihood of bodily harm to participants and has specifically been associated with a variety of physical injuries and problems including, but no limited to anemia, osteoporosis, impaired immune defenses, chronic fatigue, dangerously low percent body fat, and/or cardiac arrest. In addition excessive exercise is linked to the presence of eating disorders, placing patrons with such behavior at high risk. According to the American College of Sports Medicine (ACSM) and other health and fitness organizations, the danger of extreme exercise and eating disorders warrant specific attention.
- Wellness and Recreation reserves the right address over exercising issues with a patron(s) if there is probable cause for concern.
Fitness Center Admittance

- Verification of eligibility to use Wellness and Recreation facilities and/or participate in Wellness and Recreation programs is required.
- The Fitness Center reserves the right to refuse admittance to any individual if he/she poses a potential threat to physical property, patrons, or staff.
- Members must present a valid Regis or state issued ID upon entering the facility.
- **One & Done rule**
  - A member may forget his or her ID one time per semester and still be admitted to the facility. If a patron attempts to enter the Fitness Center a second time without their ID in the same semester he or she will be asked to return with their ID or pay the $4.00 guest fee.
  - Patrons utilizing their “one & done” must sign the Forgotten ID log upon entering the facility.
- **False ID**
  - Attempts to use another individual's ID to gain access to the Campus Recreation center & the loaning of an individual’s ID for this purpose is a violation of Regis University’s Student Code of Conduct. Consequences of this action may result in the confiscation of ID(s), suspension of Fitness Center access, and referral to the University Student Conduct office.
