

MASTER OF EDUCATION

LICENSURE AND NON-LICENSURE DEGREE PROGRAM

Regis University's Master of Education with initial licensure program is designed for learners who already hold a bachelor's degree and are seeking a master's degree and initial teacher licensure in the state of Colorado or Wyoming. Our teacher education program is based on the philosophy that learning to be a teacher is best accomplished when an understanding of theory and practice is balanced by the knowledge gained through diverse experience in schools. Foundational courses will introduce you to theories in education. Content (subject area) courses will ensure that you have the depth of knowledge needed to teach in your endorsement area. Your professional sequence courses will emphasize field placement and experiential learning and your student teaching semester will be your final culmination in applying what you have learned. Our teacher education licensure program is nationally approved through the Teacher Education Accreditation Council (TEAC).

M.ED. WITH INITIAL LICENSURE

Courses are offered online and in the classroom
