

## **Food Allergy Policy**

If you have a moderate to severe food allergy that may require modification for the campus Meal Plans, please begin your inquiry with the Dean of Students in Student Life. Student Life is located in the Student Center, Room 223. If your concerns cannot be resolved through the Dean of Students, you will be referred to Student Disability Services & University Testing, Clarke Hall, Room 241, for further review. Documentation, along with the [Food Allergy Accommodations Form](#) must be submitted to SDS/UT. Please print the form and have a certified medical provider complete it. Once we receive the form back from you or your medical provider, a committee of qualified professional staff will review the documentation and determine the appropriateness of modification or exemption from the campus Meal Plans.
