

Cybersecurity

As the world's dependence on computers and information systems continues to deepen, the need for information technology professionals is growing — especially those in the field of cybersecurity. A degree in cybersecurity will prepare you to take your place on the front lines of the fight to keep sensitive and private data safe.

Take your place on the digital front lines.

As the world continues to go digital, so does the world of crime. As a cybersecurity graduate from Regis, you'll be ready to solve cybersecurity problems, implement strategic policies and protect private and sensitive data when it matters most.

What You'll Need

TO APPLY:

- | Completed online application
- | Official transcripts from prior school(s)
- | Resume
- | Essay
