# Education: Teaching the Linguistically Diverse

English language learners need your help to meet two simultaneous challenges: learning a new language while trying to master academic subjects. The achievement gaps between ELLs and non-ELL students are deeply rooted. By pursuing research-based teaching strategies, you can help these students reach their full potential.

## Help English language learners reach their full potential.

With three program offerings for licensed educators, the Culturally and Linguistically Diverse Education program provides you with the latest research in how students learn English as an additional language and develop as bilingual learners. The course work is aligned with the Colorado Teacher Performance Standards and provides strategies for teachers to facilitate the specific needs of linguistically diverse learners.
