

Doctor of Pharmacy

The School of Pharmacy delivers a comprehensive education in a contemporary, innovative environment. Our graduates start their careers ahead of their peers thanks to collaborative, active learning that matches actual pharmacy work. With a focus on caring for the whole person, you'll become a confident patient advocate and principled practitioner of disease management and good health.

MAKE YOUR DEGREE WORK HARDER.

Our dual master's degrees combine information and technology with patient care or management, administrative, and business knowledge with pharmaceutical knowledge through an M.S. in Health Informatics, M.S. in Health Services Administration or Master in Business Administration (in development for 2022)

Alternatively students may add a specialization by applying their elective courses towards one of the below 12-credit graduate certificates:
| Health Care Business Management
| Health Care Quality and Patient Safety
| Pharmaceutical Industry Affairs
| Data Science
