

Biomedical Sciences

If you've been thinking about medical, dental or PA school, Regis University's Graduate Certificate in Biomedical Sciences can help you gain the important skills and knowledge needed in advanced health care roles. Through a rigorous 9-month program, you'll gain foundational knowledge in biomedical sciences through graduate-level courses such as gross anatomy and biomedical ethics, inspired by the University's Jesuit Catholic traditions.

The certificate is an excellent way to gain academic confidence and professional experience, which can help to solidify your career direction. Career advising is available and encouraged for all our students. Almost all credits earned in the certificate program can be transferred to the M.S. in Biomedical Sciences should you choose to pursue a full master's degree.

What you'll need

TO APPLY:

- Official degree-bearing bachelor's transcript(s)
- Valid official exam score (GRE, MCAT, DAT, PCAT, etc.)
- Two letters of recommendation from professors or professionals in your intended field
- Resume outlining relevant work and volunteer history
- 1-2 page personal statement
