

GRADUATE CERTIFICATE IN BUSINESS ADMINISTRATION

Business foundations for every professional

The **Graduate Certificate in Business Administration** is Regis University's "mini-MBA," designed for professionals who want to build core business competencies in a flexible, focused format. This five-course, 15-credit program provides practical knowledge in areas such as financial decision-making, data analytics, business strategy and ethical leadership — skills that are in high demand across industries. Whether you're looking to advance in your current career, explore new opportunities or strengthen your business acumen without pursuing a full MBA, this certificate delivers a strong, career-ready foundation.

QUICK FACTS

- Flexible:** Program can be completed in about 12-18 months
- Convenient:** Online 8-week courses designed to fit your busy schedule
- Relevant:** Gain skills in strategic thinking, marketing insight, operational planning, finance and more
- Stackable:** The certificate courses can be used toward a full MBA
- Networking:** Enjoy access to valuable connections and partnerships
- Scholar Practitioner Model:** Expert faculty with years of professional experience

Program Overview

Ideal for individuals from a variety of academic and professional backgrounds — including health care, education and the arts — this program supports both immediate professional growth and long-term goals. Courses are drawn from Regis University's MBA curriculum, so students who later decide to pursue the MBA can carry their credits forward. Grounded in Jesuit values, the program emphasizes responsible leadership and ethical decision-making while offering the flexibility that working professionals need through online and evening class options.

Sample Courses

CBE 6030 Business Intelligence and Data Analytics

Explore analytics and business statistical applications alongside techniques for data-driven decision-making. You'll also discover statistical modeling, descriptive, diagnostic, prescriptive, and predictive analytics, and data visualization.

MGT 6000 Accounting for Managers

Examine accounting concepts and principles used by managers for business decision making, with a focus on costing principles used by management that affect short- and long-term business decisions. Explore the preparation and presentation of financial statements, limitations of these statements and the ethical dimensions of financial reporting.

MGT 6010 Ethical and Legal Environment of Business

Explore the intersection of law and ethics, including how businesses apply legal principles, terminology and ethical theories. Topics include the structure of the American legal system, business forms, corporations, agency/employment law, along with product liability and negligence.

Total: 15 credit hours
