

Applied Psychology Specialization

Develop your ability to study, understand and solve problems that arise in the context of human behavior, such as public health issues, organizational or motivational issues in the workplace, and the role that emotions play in communication and conflict.

Discover the complexities of human behavior.

Take a deeper dive into the science of human behavior, investigating how people cope and thrive in the modern world. As an M.A. student pursuing a specialization in applied psychology, you will study psychological theories and learn to apply them to your own life, taking what you learn to better the world and yourself through action. You will also gain a strong relationship with faculty experts as you work with them to design a formative academic experience for yourself.

What You'll Need

TO APPLY:

- | Online application
- | Official degree-bearing bachelor's transcript(s) from a regionally-accredited college or university
- | Essay
- | Resume
- | Faculty interview may be required
