WHAT IS THE ROCKY MOUNTAIN COLLEGIATE CYBER DEFENSE COMPETITION

The RMCCDC is a well established competition that provides collegiate teams an opportunity to test their cybersecurity knowledge and abilities. Contestants will work as a replacement security operations team at a fictitious company under attack by an adversary. The competition provides faculty with a measure of the strength of their curriculum, students will find out how they do against long odds and intense pressure, while employers can search for future security, network and systems engineers. The winning team represents the region at the National Collegiate Cyber Defense Competition.

64 STUDENTS ON 8 TEAMS

SUPPORTED BY **SPONSORS** AND MORE THAN

100 VOLUNTEERS

HANDS ON
CYBER SECURITY COMPETITION

RMCCDC specifically focuses on the operational aspect of managing and protecting an existing "commercial" network infrastructure. Not only do students get a chance to test their knowledge in an operational environment, they will also demonstrate their proficiency defending a typical network while under threat from an unknown adversary, the Red team. RMCCDC provides a unique opportunity for students and industry professionals to interact and discuss many of the security and operational challenges the students will soon face as they enter the job market.

"You can't trust anything. They are hackers. They're simulating the real world, and in the real world hackers don't play by any rules but their own."

- **WILLIAM SCHNEIDER** (CONTESTANT)

WHY
SPONSOR

Sponsors of Rocky Mountain Collegiate Cyber Defense Competition have a unique opportunity to support and engage with the next generation of cybersecurity professionals. Not only does your sponsorship of RMCCDC increase the visibility of your organization among an emerging talent pool, but we've also added a career fair and networking event so that our sponsors can make valuable connections with coaches and competitors.

"It's nice to go to class and learn the theory, but to apply what you've learned is a whole different experience."

- **MISAKI TANAKA** (CONTESTANT)

MEET THE TALENT

NETWORKING AND CAREER FAIR

THURSDAY, MARCH 7
6–7:30 P.M.

All sponsors will be invited to the Networking and Career Fair event hosted online where they will be able to conduct a 15 minute presentation to the teams. This event will allow sponsors, coaches, volunteers and team members the opportunity to network prior to the competition. Get in to recruit the newest talent gearing up to join the job market.
