Information for the 2026-2027 Academic Year

A MESSAGE TO THE REGIS COMMUNITY

This document contains two reports: the **Annual Security Report** and the **Fire Safety Report**. Collectively, these reports are referred to as the **Annual Security and Fire Safety Report (ASFSR)**. The ASFSR is provided to the campus community to support ongoing efforts to maintain a safe environment in which to learn, live, and work.

The ASFSR is prepared and published by the Department of Campus Safety. This report complies with the **Jeanne Clery Campus Safety Act (Clery Act)**, **Title IX**, the **Stop Campus Hazing Act**, the **Violence Against Women Act (VAWA)**, and applicable state laws. It is intended to provide the University community with important information regarding campus safety, security, and related policies and procedures.

For statistical reporting purposes, crime statistics from all reporting sources are recorded in the calendar year in which the crime was reported. In accordance with federal requirements, the University annually requests statistical information from all designated Campus Security Authorities (CSAs).

All crime statistics included in this report are collected, compiled, and published for the University community through the ASFSR. The University also submits these crime statistics annually to the U.S. Department of Education (DoE) in accordance with the Jeanne Clery Campus Safety Act.

Crime statistics reported to the Department of Education are available to the public through the Department of Education's Campus Safety and Security Data Analysis Cutting Tool at:

<https://ope.ed.gov/campussafety/#/institution/list>

This Report applies to both Regis University campuses, which includes the main campus (referred to as the Northwest Denver Campus), and the Thornton Campus.

All policy statements in this Report apply to the Northwest Denver Campus and the Thornton Campus unless otherwise stated in this Report.

DEPARTMENT OF CAMPUS SAFETY: SECURITY POLICY STATEMENT

Regis University is committed to fostering and maintaining an environment in which individual and institutional responsibility work together to support the holistic development of every

student. To achieve this goal while respecting the rights and dignity of all members of the University community, the University has established policies and standards of conduct that reflect the values and expectations of a vibrant academic community.

Members of the University community are afforded equal rights, privileges, and opportunities, accompanied by the expectation that they will demonstrate maturity, integrity, and respect for the rights of others. When an individual fails to comply with University policies or applicable laws, the University may take appropriate disciplinary action through its established conduct processes and, when warranted, report the matter to local law enforcement authorities.

The University does not tolerate behavior, whether attempted or committed, that is unlawful or that disrupts the safety, well-being, or educational environment of the community.

The Northwest Denver Campus is located within the jurisdictions of the Denver Police Department and the Adams County Sheriff's Office. When necessary, the appropriate law enforcement agency will be contacted to respond to criminal incidents or provide assistance.

The Thornton Campus is located within the jurisdiction of the Thornton Police Department. Criminal incidents occurring at that location are reported to and investigated by the Thornton Police Department, as appropriate.

Regis University Campus Safety personnel maintain security guard licenses issued by the City and County of Denver. Campus Safety personnel are authorized to enforce University policies on the Northwest Denver Campus and operate in accordance with applicable provisions of the **Denver Revised Municipal Code, Chapter 42, Article V**, governing Private Security Businesses and Private Security Guards.

Campus Safety personnel are not sworn peace officers and do not possess law enforcement powers. However, under Colorado law, Campus Safety personnel may exercise the authority granted to private persons under **Colorado Revised Statutes § 16-3-201, Arrest by a Private Person**, when circumstances warrant.

On the Northwest Denver Campus situations involving criminal activity or when law enforcement intervention is required, the Denver Police Department or the Adams County Sheriff's Office will be contacted to provide assistance and determine the appropriate disposition of the individuals involved.

On the Northwest Denver Campus, the Campus Safety Department has jurisdiction on the core campus for areas that are owned or controlled by Regis University. Campus Safety's current jurisdiction is represented on the following map.

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

The Department of Campus Safety at the Northwest Denver Campus maintains a good working relationship with the Denver Police Department, Adams County Sheriff, Colorado Bureau of Investigations, and the Federal Bureau of Investigations.

When appropriate, Regis University requests that local law enforcement agencies provide Campus Safety with information regarding criminal activity involving students at non-campus locations owned or controlled by the University or associated with officially recognized student organizations. Campus Safety may review, document, and assess this information for inclusion in the University's crime statistics and to support compliance with the Jeanne Clery Campus Safety Act.

Memorandum of Understanding

Regis University does not maintain a written Memorandum of Understanding (MOU) with any local law enforcement agency regarding the of alleged criminal incidents. However, the University maintains collaborative working relationships with the law enforcement agencies

having jurisdiction over its campuses and coordinates with those agencies as needed.

As circumstances warrant, Regis University may pursue formal agreements or Memoranda of Understanding with the appropriate law enforcement agencies serving the jurisdictions in which its campuses are located.

During emergencies or incidents involving alleged criminal activity, Campus Safety personnel on the Northwest Denver Campus and designated University officials at the Thornton Campus promptly notify and collaborate with the appropriate local law enforcement agency to facilitate an effective response, support investigative efforts, and coordinate information sharing when necessary.

SAFETY AND SECURITY FEATURES ON THE NORTHWEST CAMPUS

Campus Safety security guards patrol the Northwest Denver Campus 24 hours a day, seven days a week, to help maintain a safe and secure environment for the University community.

Contact information for the local law enforcement agencies with jurisdiction over University campuses is provided below.

- Denver Police Department (District 1 Non-Emergency Dispatch): 720-913-0400
- Adams County Sheriff (Non-Emergency Dispatch): 303-288-1535

The Department of Campus Safety is located in **West Hall, Suite 107**. Administrative office hours are **7:00 a.m. to 4:00 p.m., Monday through Friday**.

Campus Safety is available **24 hours a day, seven days a week**, and can be reached at **303-458-4122** for emergencies, assistance, or to report safety and security concerns.

Campus Safety personnel patrol the campus by vehicle, bicycle, golf cart, and on foot to help maintain a safe and secure environment for the University community. Local law enforcement agencies respond to most criminal incidents and other emergencies reported by students, employees, and members of the public. Depending on the nature of the incident, individuals may be directed by law enforcement to submit a report through the agency's online reporting system.

Emergency assistance from law enforcement, fire services, or emergency medical services may be requested by dialing **911** from any campus phone.

Regis University utilizes a system known as **911 Inform**, which enhances emergency response coordination. When a 911 call is placed from a campus location, the system simultaneously routes the call to the appropriate 911 dispatch center and notifies Campus Safety that an emergency call has been initiated. This notification enables Campus Safety personnel to respond promptly, assist emergency responders in locating the caller, and coordinate support as needed.

The University strives to maintain oversight of all residence halls through Residence Life's student staff during the academic year. Residence Life staff and Campus Safety personnel work together to promote a safe and secure living environment for residential students.

Security cameras are installed to monitor residence hall areas. Residence hall exterior doors remain secured, and access is restricted to authorized residents and approved personnel through the use of individual University-issued access credentials.

Primary residence hall entrances are accessible only to authorized residents using their assigned key card or electronic access credential.

Communication and Emergency Response Resources

The University maintains a variety of communication and emergency response resources throughout the Northwest Denver Campus to support the safety and well-being of the campus community.

- **Emergency Call Boxes** are located throughout the Northwest Denver Campus and provide direct communication with Campus Safety personnel.
- **Elevator Emergency Phones** connect directly to an answering service, which will contact the appropriate emergency responders, including the fire department and Campus Safety, as needed.
- **Automated External Defibrillators (AEDs)** are located in clearly marked cabinets throughout the Northwest Denver Campus. On most devices, removing the AED from its cabinet activates a local alarm and the majority of the AED cabinets automatically sends a notification to Campus Safety. If an AED is used or removed during a medical emergency, individuals should immediately call **911**.
 - **Tourniquets** are available in AED cabinets for emergency medical use.
 - **Narcan® (naloxone) nasal spray** is also located in AED cabinets for use in suspected opioid overdose emergencies.
- **Rescue Assistance Stations** are located in David M. Clarke Hall, S.J. (Clarke Hall), the Student Center, and DeSmet Hall, in elevator lobbies on all floors except the first floor. These stations connect callers to an answering service that can coordinate assistance and emergency response resources.
- **Emergency Evacuation Rescue Chairs** are located in Main Hall, the Student Center, St. Peter Claver Hall, S.J. (Claver Hall), Clarke Hall, DeSmet Hall, and O'Connell Hall.

Through this partnership, campus personnel assist in coordinating responses to incidents, communicating safety information, and promoting a safe and secure environment for students, faculty, staff, and visitors.

The Thornton Campus is equipped with two **Automated External Defibrillators (AEDs)** for use during medical emergencies. In addition to AEDs, the emergency response cabinets contain **tourniquets** and **Narcan® (naloxone) nasal spray** to assist in responding to traumatic injuries and suspected opioid overdose incidents.

The Thornton Campus occupies space within a larger multi-tenant facility. Building and property security services are provided by the property owner through a third-party security vendor. Regis University does not maintain a contractual relationship with the building's security provider; however, the University coordinates with building management and security personnel as needed to support campus safety and security.

For areas under the control of Regis University, the University employs a part-time contract security officer who assists in maintaining a safe and secure environment. The security officer may request assistance from the Thornton Police Department or building security personnel when criminal activity, policy violations, or other safety concerns are identified.

The contract security officer is generally assigned to the Thornton Campus from **5:30 p.m. to 10:30 p.m., Monday through Thursday**, except when the campus is closed, and at other times as requested by campus administration. The officer is stationed at the reception area, provides safety escorts upon request, and conducts routine patrols of University-controlled spaces within the facility.

Contract security personnel are not sworn peace officers and do not possess law enforcement powers. However, authority to effect a detention may be exercised under **Colorado Revised Statutes § 16-3-201, Arrest by a Private Person**, when circumstances warrant.

In situations requiring law enforcement intervention, the **Thornton Police Department** will be contacted to respond, provide assistance, and determine the appropriate disposition of the individuals involved.

Residence Hall access is for authorized staff and residents who live in their assigned residential housing. Guest policies are regulated by the *Office Housing and Residential Engagement* (HRE). Residents must use their issued swipe card keys for entry through the main entry doors of the residential facility where they live. Swipe card keys are coded to permit access only to the residence hall where the student lives. During the school year, the main desk to each residence hall may be manned by student staff, on a schedule set by the HRE. Solicitors are not allowed on campus. Non-Regis delivery or service staff are only permitted entry as required. Residential Hall entry doors are on 24-hour lockdown.

The Athletic Department is responsible for the management, scheduling, and oversight of all athletic fields throughout the academic year and calendar year. The University reserves the right, at its sole discretion, to limit or deny field use by any individual, organization, or group. Alcoholic beverages are prohibited on all athletic fields unless expressly authorized through a written contractual agreement with the University.

Regis University's Physical Plant Department is responsible for maintaining campus facilities in a manner that minimizes hazardous and unsafe conditions. Campus parking lots, walkways, and pathways are equipped with appropriate lighting to enhance safety and security. The Department of Campus Safety works collaboratively with the Physical Plant Department to promptly identify and address safety and security concerns, including burned-out lights, malfunctioning door locks, and other facility-related deficiencies. Through this ongoing partnership, potential hazards are addressed in a timely manner to help maintain a safe campus environment for students, faculty, staff, and visitors.

Field House Hours of Operation

When in operation, the Field House is open to members of the Regis community Monday through Friday from **8:00 a.m. to 10:00 p.m.**

Hours of operation for the Field House, athletic fields, and other associated facilities may be modified due to athletic competitions, special events, facility maintenance, or reservations by external organizations. Community members are encouraged to verify facility availability before use.

Campus Safety and Security Monitoring

Campus Safety personnel conduct regular patrols of academic, administrative, and residential buildings on the Northwest Denver Campus. These patrols are intended to monitor campus conditions, respond to calls for service, and identify and report unusual, suspicious, or unsafe circumstances.

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

Residence Life staff support safety and security efforts within the University's residential facilities and work collaboratively with Campus Safety to address concerns affecting resident students.

Students, faculty, staff, and visitors are encouraged to promptly report criminal activity, suspicious behavior, safety concerns, or emergencies to the Department of Campus Safety. Timely reporting enables the University to respond effectively, assess potential threats, provide appropriate assistance, and maintain a safe and secure campus environment.

Adams County Residential Property

Regis University maintains a residential property in Adams County located north of the Northwest Denver Campus. For safety and security reporting purposes, this residence is considered part of the University's core campus.

Criminal activity, suspicious behavior, and other safety-related incidents occurring at the Adams County residential property should be reported promptly to the Department of Campus Safety. When appropriate, individuals should also report such incidents to the Adams County Sheriff's Office at (303) 288-1535.

The University works cooperatively with local, county, and state law enforcement agencies to support the safety and security of all members of the campus community and to ensure appropriate coordination when incidents occur on or near University property.

Non-campus Facilities

Non-campus property includes any building or property owned or controlled by a student organization that is officially recognized by the University, as well as any building or property owned or controlled by the University that is used in direct support of, or in relation to, the University's educational purposes, is frequently used by students, and is not located within the same reasonably contiguous geographic area as the institution's main campus.

If a crime occurs at a non-campus location, individuals should promptly contact the law enforcement agency having jurisdiction over that location. Members of the Regis University community are also encouraged to report crimes, suspicious activity, and other safety-related incidents to the Department of Campus Safety or another Campus Security Authority (CSA).

Reports made to Campus Safety or a CSA allow the University to assess whether the incident warrants the issuance of an RU Alert or RU Informed notification and ensure appropriate

Information for the 2026-2027 Academic Year

documentation in the Daily Crime Log and the Annual Security and Fire Safety Report, as required by applicable law and University policy.

WEAPONS POLICY

Regis University is committed to providing a safe working and learning environment. Therefore, the possession and use of firearms is prohibited on university premises (or leased premises), including, but not limited to, offices, classrooms, residence halls, or at University sponsored activities, without the express permission of the University. It is a violation of University policy to possess any firearm on University premises or at University sponsored activities, even if the bearer possesses a valid concealed weapons permit. Certified law enforcement personnel may carry their department issued firearm on campus if required by their responsibilities as a law enforcement officer.

The legal definition of lethal weapons is impinged by the intent of use, making the list of potential weapons too exhaustive to comprehensively list. However, those items which have the potential for causing substantial bodily damage such as explosives will also be considered to be prohibited under this rule. Any plausible statement or evidence that a community member possesses a weapon or other item and is presenting it with the intent to injure another person, may be responded to as an actual threat, whether or not evidence of a weapon exists.

The possession of less-lethal self-defense instruments (for example, pepper spray) is permitted. However, the reckless use of such devices may be considered a violation of this policy.

All employees must adhere to this policy. All University employees are responsible for the timely reporting of concerns regarding weapons and should contact campus security immediately to report concerns. In circumstances of eminent, life-threatening danger, University employees are expected to act to protect their life or the life of others, up to and including calling 911. Employees must act in good faith and with reasonable prudence in such circumstances.

Any plausible statement or evidence that a community member possesses a weapon may be responded to as an actual threat, whether or not evidence of a weapon exists.

CRIME REPORTING PROCEDURES

Campus Safety encourages the accurate and timely reporting of all crimes, suspicious activity, and safety concerns to Campus Safety, other designated Campus Security Authorities (CSAs), and the appropriate law enforcement agency, as applicable. Reports should be made whenever a victim chooses to do so or is able to make such a report. In situations where a victim is unable to

report an incident to law enforcement due to injury, incapacitation, or other circumstances, Campus Safety will notify the appropriate law enforcement agency on the victim's behalf.

Northwest Denver Campus

All members of the Regis community, as well as guests and visitors at the Northwest Denver Campus and Thornton Campus, are encouraged to report emergency situations and suspected violations of law or University policy to the Department of Campus Safety. At the Northwest Denver Campus, the Department of Campus Safety is the primary agency responsible for receiving and responding to such reports.

c. Report Retention

The Campus Hazing Transparency Report, including all required updates, shall be maintained and publicly accessible for a period of five (5) years from the date of publication.

Note:

Hazing incidents included in the Campus Hazing Transparency Report are categorized and classified using the applicable federal definition of hazing. However, state law definitions and Regis University policy definitions may also be considered during the investigation, adjudication, and reporting process when determining whether conduct constitutes hazing.

Under the *Stop Campus Hazing Act*, *Hazing* is defined as.

The term ‘hazing’, means any intentional, knowing, or reckless act committed by a person (whether individually or in concert with other persons) against another person or persons regardless of the willingness of such other person or persons to participate, that—

- a. is committed in the course of an initiation into, an affiliation with, or the maintenance of membership in, a student organization; and
- b. causes or creates a risk, above the reasonable risk encountered in the course of participation in the institution of higher education or the organization (such as the physical preparation necessary for participation in an athletic team), of physical or psychological injury including— “
 - i. Whipping, beating, striking, electronic shocking, placing of a harmful substance on someone’s body, or similar activity.
 - ii. Causing, coercing, or otherwise inducing sleep deprivation, exposure to the elements, confinement in a small space, extreme calisthenics, or other similar activity.
 - iii. Causing, coercing, or otherwise inducing another person to consume food, liquid, alcohol, drugs, or other substances.
 - iv. Causing, coercing, or otherwise inducing another person to perform sexual acts.

C. 18-9-124. Hazing – penalties - legislative declaration.

(1)

(a) The general assembly finds that, while some forms of initiation constitute acceptable behavior, hazing sometimes degenerates into a dangerous form of intimidation and degradation. The general assembly also recognizes that although certain criminal statutes cover the more egregious hazing activities, other activities that may not be covered by existing criminal statutes may threaten the health of students or, if not stopped early enough, may escalate into serious injury.

(b) In enacting this section, it is not the intent of the general assembly to change the penalty for any activity that is covered by any other criminal statute. It is rather the intent of the general assembly to define hazing activities not covered by any other criminal statute.

(2) As used in this section, unless the context otherwise requires:

(a) “Hazing” means any activity by which a person recklessly endangers the health or safety of or causes a risk of bodily injury to an individual for purposes of initiation or admission into or affiliation with any student organization; except that “hazing” does not include customary athletic events or other similar contests or competitions, or authorized training activities conducted by members of the armed forces of the state of Colorado or the United States.

(b)

(c) “Hazing” includes but is not limited to:

(I) Forced and prolonged physical activity

(II) Forced consumption of any food, beverage, medication or controlled substance, whether or not prescribed, in excess of the usual amounts for human consumption or forced consumption of any substance not generally intended for human consumption.

(III) Prolonged deprivation of sleep, food, or drink.

(3) It shall be unlawful for any person to engage in hazing.

(4) Any person who violates subsection (3) of this section commits a class 2 misdemeanor.

Information for the 2026-2027 Academic Year

Regis University is not required to establish or publish a **Campus Hazing Transparency Report** until the University has issued a finding of responsibility for a hazing violation involving a student organization.

Similarly, the University is not required to update the Campus Hazing Transparency Report for any reporting period during which no finding of responsibility for a hazing violation has been issued. If no qualifying hazing violations are found during a reporting period, no update to the report is required.

Once a finding of responsibility for a hazing violation is made, Regis University will publish and maintain the Campus Hazing Transparency Report in accordance with applicable federal requirements and University policy.

CAMPUS SECURITY AUTHORITIES

Campus Security Authorities (CSAs) are officials of Regis University who have significant responsibility for student and campus activities and to whom victims of crime may report incidents. Students and employees are encouraged to report criminal offenses identified under the **Jeanne Clery Campus Safety Act** to a CSA. These reports enable Campus Safety to review incidents and determine whether they require the issuance of an Emergency Notification or Timely Warning.

In addition, when a reported crime is **Clery-reportable**, Campus Safety will evaluate and document the incident in accordance with federal reporting requirements. As applicable, the crime may be included in the Daily Crime Log, counted in the Annual Security Report, reported to the U.S. Department of Education, and included in the Fire Safety Report.

Campus Security Authorities (CSAs) at Regis University include Campus Safety personnel, Residential Housing staff, the Dean of Students, Athletics Department staff, Club Advisors, the Equal Opportunity (EO)/Title IX Coordinator, the Director of Student Health and Counseling Services, Victim Advocates, and contracted law enforcement officers who provide additional security for campus events.

CSAs receive annual training on their responsibilities under the **Jeanne Clery Campus Safety Act**. This training covers Clery Act crime reporting requirements, Clery geography, Timely Warnings and Emergency Notifications, and the procedures for submitting CSA reports. The training ensures that CSAs understand their role in supporting campus safety, compliance, and the accurate reporting of Clery-reportable crimes.

Crimes within the *Clery Act* that require statistical counting in the ASFSR and to the *Department of Education* are as follows:

Prompt reporting helps ensure an appropriate response, enhances campus safety, and allows the University to assess whether an incident may be related to other reported crimes or require the issuance of a Timely Warning or Emergency Notification. Even if an incident does not appear to be significant or directly related to a Clery-reportable offense, community members are encouraged to report it so that Campus Safety can evaluate the circumstances and take appropriate action.

RESPONSE TO REPORTS

At the Northwest Denver Campus, all reports involving criminal activity should be made promptly to the Department of Campus Safety, which is available 24 hours a day at **(303) 458-4122**. Upon receiving a report, Campus Safety personnel will either respond to the location of the incident or arrange for the reporting party to complete an incident report through the Campus Safety office.

The Department of Campus Safety is responsible for receiving, documenting, investigating, or otherwise addressing reports of criminal activity and other safety-related incidents occurring on the Northwest Denver Campus. Campus Safety personnel work with local law enforcement and other University departments, as appropriate, to ensure incidents are thoroughly reviewed and resolved.

Campus Safety incident reports that appear to involve student misconduct are forwarded to the Dean of Students or their designee for review and possible referral under applicable University policies and procedures. The Dean of Students' Office evaluates reported conduct to determine whether University policy violations have occurred and whether disciplinary action or other interventions are warranted.

If assistance from local law enforcement, emergency medical services, or the fire department is needed, the Department of Campus Safety will contact the appropriate agency and coordinate response efforts as necessary.

Violence Against Women Act Crimes

When a report involves sexual assault, domestic violence, dating violence, or stalking, the Campus Safety employee receiving the report will promptly notify the University's Equal Opportunity & Title IX Coordinator. The Title IX Coordinator will provide information about available resources, supportive measures, reporting options, and University processes, and will work with the affected individual to address the situation. The University will assist with notifying law enforcement when requested by the victim or otherwise required by law.

- The exception to this rule applies to minors, and that under Colorado Law Title 19, Article 3, Part 3 Child Abuse and Neglect, § 19-3-307.

Hate Crimes

Members of the university community should report hate crimes to Campus Safety or any Campus Security Authority (CSA). Clery Act crimes that are determined to be Hate Crimes are included in Clery Act crime statistics and are reported separately, as required by federal law, in the Hate Crimes section of the Annual Security Report (ASR).

In addition, four offense categories are reportable only when classified as hate crimes:

Intimidation, Destruction/Damage/Vandalism of Property, Larceny-Theft, and Simple Assault. These offenses are documented in the Hate Crimes section of the Annual Security Report and are not included in other crime statistical categories within the report.

A Hate Crime is a criminal offense that provides evidence that the victim was intentionally selected because of the offender's bias against the victim. While bias can be motivated by many factors, the Clery Act identifies eight categories of bias that institutions must address and report when applicable.

Select the link on each bias to see the definition.

<u>Race</u>	<u>Religion</u>	<u>Gender</u>	<u>Gender Identity</u>
<u>Sexual Orientation</u>	<u>Ethnicity</u>	<u>National Origin</u>	<u>Disability</u>

Reports of hate crimes or other incidents that appear to be bias-related are referred to the Equal Opportunity (EO)/Title IX Coordinator or Human Resources for assessment, investigation, and appropriate action in accordance with university policy and applicable law.

During operational hours, a campus official will respond to calls for assistance at the Thornton Campus. In response to a request for assistance at an Extension Campus, the campus official will take appropriate action, which may include helping the reporting party contact local law enforcement or directing the reporting party to submit an incident report to Campus Safety. Campus Safety will review and investigate the report, as appropriate, and work toward a resolution.

Regis community members may report Hazing Crimes to Campus Safety, a Campus Security Authority, an official of Regis University, or law enforcement.

Members of the Regis community should report incidents involving criminal activity of any kind occurring at the Thornton Campus to Campus Safety at (303) 458-4122. During operational hours, a campus official will respond to calls for assistance at the Thornton Campus.

In response to a call regarding an incident at an Extension Campus, the campus official will take appropriate action, which may include assisting the reporting party in contacting local law enforcement or requesting that the reporting party submit an incident report to Campus Safety. Campus Safety will review and investigate the report, as appropriate, and coordinate follow-up actions and resolution.

If the appropriate law enforcement agency already received the report or made the missing-person determination, Campus Safety shall document that fact and coordinate further action with the agency.

5. Missing Student Notifications for Students Residing in On-Campus Housing

2026 Annual Security and Fire Safety Report

For purposes of Clery Act compliance, the University shall complete all required Missing Student notifications no later than 24 hours after the student is determined to be missing.
2. If the student is under 18 years of age and not emancipated, notify the student's custodial parent or guardian, in addition to any designated Missing Person Contact, within the same period; and
3. Notify the appropriate law enforcement agency within six hours after the University received the report and in all events within 24 hours after the student is determined to be missing, unless the law enforcement agency was the entity that made the determination.

ALCOHOL AND DRUGS POLICY

A. Alcohol and Drugs Policy

As an academic community deeply rooted in Catholic and Jesuit traditions, Regis University's policy on alcohol and drugs is centrally informed by our ethic of care and concern for the individual person and the welfare of our community members (*cura personalis*). Regis University is committed to providing a learning, living, and work environment for all members of its community of students, faculty, and staff that promotes adhering to personal standards and values that are socially responsible and develop the skills and leadership abilities necessary for distinguished professional performance and important contributions to the improvement of society. In pursuit of this mission, and consistent with the requirements of applicable law, including the federal *Drug-Free Schools and Communities Act* and the federal *Drug Free Workplace Act*, the University is committed to preventing the unlawful use of illegal and/or controlled substances, including marijuana, by students, faculty and staff, and to encourage and require lawful and responsible behavior regarding the consumption of alcoholic beverages. This policy, and the resources found in it, provide the framework for the University's commitment to these goals and reinforces the University's commitment to maintain an environment that is dedicated to the physical, emotional, spiritual and psychological development of our community members.

B. Drug Policy

1. The University prohibits in or on any University Property or at any other location where a University-Sponsored Activity is conducted: (i) the actual or attempted unauthorized possession, use, distribution, sale or manufacture of any Controlled Substance; (ii) being impaired by any Controlled Substance; (iii) being under the influence of or testing positive for any Controlled Substance, except for a prescription medication taken in accordance with a prescription duly issued by the individual's licensed health care provider for treatment of a health condition (**Note, however, that marijuana, even prescribed for medical use, is prohibited under this policy. See paragraph C below.**); (iv) the actual or attempted possession, use, distribution, sale or manufacture of any Drug Paraphernalia; or (v) the actual or attempted possession or use of a hookah. The University also prohibits knowing presence where a Controlled Substance is being illegitimately consumed or is illegitimately present. As indicated by the definition of the term Controlled Substance shown above, these prohibitions cover marijuana, synthetic cannabinoids and prescription medication.
 - a. Any individual, including, but not limited to, any student, employee, contractor, agent, volunteer, or guest who violates this policy may be subject to applicable screening procedures and shall be subject to discipline, dismissal, exclusion, termination, arrest or citation, and referral by University officials for prosecution, as may be applicable. Also, any student who violates this policy may be required to complete a mandatory psychoeducational substance use

Information for the 2026-2027 Academic Year

program provided by either the University's Counseling Services or its Center for Counseling, Family and Play Therapy (CCFPT), or through a pre-approved off-campus provider, as directed by the Associate Vice President for Student Affairs/Dean of Students, or their designee; any employee who violates this policy may be required to consult with appropriate counseling professionals through the Employee Assistance Program or the CCFPT, or through a pre-approved off-campus provider, as directed by the Associate Vice President of Human Resources or their designee.

- b. Students in certain academic programs may be subject to screening procedures required by the University or an affiliated experiential learning site for detection of Controlled Substances and/or alcoholic beverages as a condition to enrollment and continued matriculation in the program and participation in such related experiential education activities. For further information, please refer to the applicable procedures of the academic program in question.
- c. Despite its legal status and permitted medical and recreational uses under Colorado state law and the laws of other states, marijuana is still an illegal substance under federal law. The federal *Controlled Substances Act* includes marijuana as an Illegal Drug. Under the federal *Drug-Free Schools and Communities Act* and its implementing regulations, any college or university that receives funding from any federal program must have a program to prohibit the unlawful possession and use of illegal drugs, including marijuana. Failure to comply jeopardizes continued federal funding. As a recipient of federal funding that benefits many of its students, faculty and staff, the University's above-stated policy prohibiting the possession or use of Controlled Substances includes marijuana, regardless of the marijuana's form or method of consumption, and regardless of whether it is for recreational or medical use.

C. Alcohol Policy

- 1. The University prohibits the possession, use, distribution, sale or manufacture of alcoholic beverages, except at such activities, or in such areas and in such a manner as may be specifically authorized by the University. Additional security may be required to obtain such permission. Sponsors of social activities are expected to limit alcohol to moderate amounts and to keep the focus of the event on social interaction rather than alcohol consumption. Food and non- alcoholic beverages should be available at any event where alcohol is served, and both ought to be served in equal proportions. Advertising for student-sponsored events that includes any reference to alcohol, or states or suggests that alcohol will be available at an event is prohibited.

- b. The age limit for the lawful consumption of alcoholic beverages in Colorado is 21 years of age or older. The following is for general informational purposes only and does not reflect all of the possible criminal sanctions under current law. If necessary, legal advice should be obtained from a licensed attorney.

E. Colorado Law

1. Uniform Controlled Substances Act of 1992, C.R.S. 18-18-101 et seq.

For example, cocaine is a Schedule II drug under CRS 18-18-204 (2) (a) (IV). A first conviction for possessing this Schedule II drug is a Class 4 felony, punishable by imprisonment from six months to one year and/or a fine of \$1,000 to \$100,000.

licensed or authorized by law to prescribe, dispense or administer it for a bona fide medical need), is a Level 2 misdemeanor, punishable either by no imprisonment and a \$50 fine or up to twelve (12) months of imprisonment and/or a \$750 fine.

- c. While Colorado law authorizes the limited use of marijuana for medical and recreational purposes, criminal sanctions still exist for marijuana possession and use in certain circumstances. For example, being charged and found guilty of possessing more than two (2) ounces of marijuana, but not more than six (6) ounces is a Level 2 drug misdemeanor punishable either by no imprisonment and a \$50 fine or up to twelve (12) months of imprisonment and/or a \$750 fine. Public consumption or use of marijuana is also prohibited and can result in criminal sanctions that can vary depending on the amount consumed or used

NOTE, HOWEVER, THAT MARIJUANA IS AN ILLEGAL DRUG UNDER FEDERAL LAW, AND AS STATED IN PARAGRAPH C ABOVE, THE UNIVERSITY'S POLICY PROHIBITING THE POSSESSION OR USE OF CONTROLLED SUBSTANCES INCLUDES MARIJUANA, REGARDLESS OF THE MARIJUANA'S FORM OR METHOD OF CONSUMPTION, AND REGARDLESS OF WHETHER IT IS FOR RECREATIONAL OR MEDICAL USE.

2. Underage Possession or Consumption of Alcohol

Being charged and convicted of possessing or consuming alcohol while under 21 years of age is a strict liability offense, and as a first offense is punishable by a fine of up to \$100 and/or completion of a government approved substance abuse education program.

F. Federal Law

1. Federal law includes, among other things, comprehensive prohibitions on the manufacture, distribution and dispensing of Illegal Drugs. VAWA POLICIES & PROCEDURES

Regis University prohibits the crimes of domestic violence, dating violence, sexual assault, and stalking, as defined by the Jeanne Clery Campus Safety Act (Clery Act). To support a safe and respectful campus environment, Regis University provides prevention and awareness programs, education, and resources addressing domestic violence, dating violence, sexual assault, and stalking. The University also has established procedures for the prompt, fair, and impartial resolution of reports involving these offenses. These procedures will be followed whenever an allegation is reported to a University official, regardless of whether the incident occurred on or off campus, to the extent permitted by University policy and applicable law.

In addition to enforcement activities, Regis University engages in comprehensive, intentional, and integrated programs, initiatives, strategies, and campaigns designed to prevent and address dating violence, domestic violence, sexual assault, and stalking. These efforts:

- Are culturally relevant, inclusive of diverse communities and identities, sustainable, responsive to community needs, and informed by research or assessed for effectiveness and outcomes.
- Consider environmental risk and protective factors at the individual, relationship, institutional, community, and societal levels.
- Include both primary prevention and awareness programs for incoming students and new employees, as well as ongoing prevention and awareness campaigns for current students and employees.

Prevention and awareness campaigns consist of programs, initiatives, and strategies that are sustained over time and focus on increasing awareness, knowledge, and skills related to the prevention of and response to dating violence, domestic violence, sexual assault, and stalking. These campaigns employ a variety of approaches and engage audiences throughout the University community to promote a safe, respectful, and supportive campus environment.

The institution provides educational programming consisting of primary prevention and awareness programs for all incoming students, new employees, and new supervisors, as well as ongoing prevention and awareness campaigns for students and employees that:

- Identifies domestic violence, dating violence, sexual assault and stalking as prohibited conduct.
- Educational programming uses definitions provided both by the Department of Education as well as Colorado State law what behavior constitutes domestic violence, dating violence, sexual assault, and stalking.
- Defines what behavior and actions constitute consent to sexual activity at Regis University and the definition of consent found in the **Title IX Sexual Harassment Policy**, and the purposes for which the definition is used.
 - Information regarding:
 - Procedures victims should follow if a crime of domestic violence, dating violence, sexual assault and stalking occurs (as described in “Procedures Victims Should Follow if a Crime of Domestic Violence, Dating Violence, Sexual Assault and Stalking Occurs” elsewhere in this document)
 - How the institution will protect the confidentiality of victims and other necessary parties (as described in “Assistance for Victims: Rights and Options” elsewhere in this document);
 - Existing counseling, health, mental health, victim advocacy, legal assistance, visa and immigration assistance, student financial aid, and other services available for victims, both within the institution and in the community (as described in “Assistance for Victims: Rights and Options” elsewhere in this document);

- Options for, available assistance in, and how to request changes to academic, living, transportation, and working situations or protective measures (as described in “Assistance for Victims: Rights and Options” elsewhere in this document);
- Procedures for institutional disciplinary action in cases of alleged dating violence, domestic violence, sexual assault, or stalking (as described in “Adjudication of Violations” elsewhere in this document).

HOW TO BE A SAFE BYSTANDER

Safe and positive options for bystander intervention. Bystander intervention means safe and positive options that may be carried out by an individual or individuals to prevent harm or intervene when there is a risk of dating violence, domestic violence, sexual assault or stalking. Bystander intervention includes recognizing situations of potential harm, understanding institutional structures and cultural conditions 38 2025 Annual Security and Fire Safety Report Information for the 2025-2026 Academic Year that facilitate violence, overcoming barriers to intervening, identifying safe and effective intervention options, and taking action to intervene.

Bystanders play a critical role in the prevention of sexual and relationship violence. They are “individuals who observe violence or witness the conditions that perpetuate violence. They are not directly involved but have the choice to intervene, speak up, or do something about it.”¹ Regis wants to promote a culture of community accountability where bystanders are actively engaged in the prevention of violence without causing further harm. We may not always know what to do even if we want to help. Below is a list² of some ways to be an active bystander. Further information regarding bystander intervention may be found. If you or someone else is in immediate danger, dial 911. This could be when a person is yelling at or being physically abusive towards another and it is not safe for you to interrupt.

1. Watch out for your friends and fellow students/employees. If you see someone who looks like they could be in trouble or need help, ask if they are ok.
2. Confront people who seclude, hit on, try to make out with, or have sex with people who are incapacitated.
3. Speak up when someone discusses plans to take sexual advantage of another person.

4. Believe someone who discloses sexual assault, abusive behavior, or experience with stalking.
5. Refer people to on or off campus resources listed in this document for support in health, counseling, or with legal assistance.

RISK REDUCTION

Risk reduction means options designed to decrease perpetration and bystander inaction and to increase empowerment for victims to promote safety and to help individuals and communities address conditions that facilitate violence.

With no intent to victim blame and recognizing that only abusers are responsible for their abuse, the following are some strategies to reduce one's risk of sexual assault or harassment.

1. Be aware of your surroundings. Knowing where you are and who is around you may help you to find a way to get out of a bad situation.
2. Try to avoid isolated areas. It is more difficult to get help if no one is around.
3. Walk with purpose. Even if you don't know where you are going, act like you do.
4. Trust your instincts. If a situation or location feels unsafe or uncomfortable, remove yourself from the situation whenever possible.
5. Try not to load yourself down with packages or bags as this can make you appear more vulnerable.
6. Make sure your cell phone is with you and charged and that you have cab, uber, etc. money.
7. Don't allow yourself to be isolated by someone you don't trust or someone you don't know.
8. Avoid putting music headphones in both ears so that you can be more aware of your surroundings, especially if you are walking alone.
9. When you go to a social gathering, go with a group of friends. Arrive together, check in with each other throughout the evening, and leave together. Knowing where you are and who is around you may help you to find a way out of a bad situation.

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

10. Trust your instincts. If you feel unsafe in any situation, go with your gut. If you see something suspicious, contact law enforcement immediately (local authorities can be reached by calling 911 in most areas of the U.S.).
11. Don't leave your drink unattended while talking, dancing, using the restroom, or making a phone call. If you've left your drink alone, just get a new one.
12. Don't accept drinks from people you don't know or trust. If you choose to accept a drink, go with the person to the bar to order it, watch it being poured, and carry it yourself. At parties, don't drink from the punch bowls or other large, common open containers.
13. Watch out for your friends, and vice versa. If a friend seems out of it, is way too intoxicated by the amount of alcohol they've had, or is acting out of character, get him or her to a safe place immediately.
14. If you suspect you or a friend has been drugged, contact law enforcement immediately (local authorities can be reached by calling 911 in most areas of the U.S.). Be explicit with doctors so they can give you the correct tests (you will need a urine test and possibly others).
15. If you need to get out of an uncomfortable or scary situation here are some things that you can try:
 - a. Remember that being in this situation is not your fault. You did not do anything wrong; it is the person who is making you uncomfortable that is to blame.
 - b. Be true to yourself. Don't feel obligated to do anything you don't want to do. "I don't want to" is always a good enough reason. Do what feels right to you and what you are comfortable with.
 - c. Have a code word with your friends or family so that if you don't feel comfortable you can call them and communicate your discomfort without the person you are with knowing. Your friends or family can then come to get you or make up an excuse for you to leave.
 - d. Lie. If you don't want to hurt the person's feelings it is better to lie and make up a reason to leave than to stay and be uncomfortable, scared, or worse. Some excuses you could use are needing to take care of a friend or family member, not feeling well, having somewhere else that you need to be, etc.

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

16. Try to think of an escape route. How would you try to get out of the room? Where are the doors? Windows? Are there people around who might be able to help you? Is there an emergency phone nearby?
17. If you and/or the other person have been drinking, you can say that you would rather wait until you both have your full judgment before doing anything you may regret later.

The University has developed educational campaigns for security awareness that consist of live presentations and the distribution of educational materials to new and existing students. The University also includes security information and materials during new employee orientation.

 - a. An employee of Regis conditioning the provision of an aid, benefit, or service of Regis on an individual's participation in unwelcome sexual conduct;
 - b. Unwelcome conduct determined by a Reasonable Person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to Regis University's education program or activity ¹;
 - c. Sexual Assault ², Dating Violence, Domestic Violence, or Stalking as defined in this Policy. ³
5. The Title IX Coordinator and Key Title IX Official. Individuals who believe they have been subject to Sexual Harassment as defined in this Policy are strongly encouraged to report such incidents to the Equal Opportunity and Title IX Coordinator (TIXC). The Title IX Coordinator will respond promptly to all reports and Formal Complaints of Sexual Harassment. The Title IX Coordinator is available to discuss the grievance process, coordinate supportive measures, explain Regis University's policies and procedures, and provide education on relevant issues. The Title IX Coordinator may designate one or more Deputy Title IX Coordinators to facilitate these responsibilities. The Title IX Coordinator contact information is as follows.

impartial investigations and adjudications of Formal Complaints of Sexual Harassment. All materials used to train these administrators will be publicly made available on the Regis website in accordance with Title IX requirements.

Protected Speech. Freedom of speech and principles of academic freedom are values of Regis University. Constitutionally protected expression cannot be considered Sexual Harassment under this Policy, including discussions, communications, or actions that invoke a protected status in nature but are part of a legitimate academic exchange of ideas or artistic performance.

6. **Reporting Requirements and Options.** Anyone may file a report at any time via the [Equal Opportunity and Title IX Webpage](#) on Regis's website pursuant to the EO and Title IX Resolution Processes as proscribed below. Employees and students may also file a criminal complaint with the Denver Police Department, Adams County Sheriff, or the Thornton Police Department for crimes committed at the Interprofessional Health Site in Thornton.

- a. **Reporting Requirements**

- i. **All Community Members.** It is the responsibility of every member of the University community to foster an environment free from Discrimination, Harassment, Sexual Misconduct, and Retaliation. Colorado law requires that anyone who has reason to believe a minor (17 years of age or less) has been sexually assaulted immediately report the matter to the Denver Police Department or other local law enforcement.
- ii. **Employees.** All Regis University Employees (except for Confidential or Privileged Employees) are considered Responsible Employees. Responsible Employees are expected to promptly report when the Responsible Employee knows of a possible incident of discrimination, harassment, or sexual misconduct. Failure to report constitutes a violation of this Policy and may subject the violator to disciplinary action. Confidential or Privileged Employees who are not Responsible Employees are required to explain their confidential status by stating they are not required to disclose to the Title IX & EO Coordinator (TIXC).
- iii. **Students and Student Employees.** Students and Student Employees are encouraged to report knowledge of prohibited conduct.
- iv. **Campus Security Authorities.** Students, staff, or faculty who have been identified under the Clery Act must report the crimes of sexual assault, dating violence, domestic violence and stalking to the designated department who collects crime statistics for inclusion into the Annual Security Report. The designated department is Campus Safety.

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

- b. **Choice.** An alleged victim of discrimination, harassment, sexual misconduct, or retaliation has the right to choose whether to report to the University themselves. While a Complainant can choose not to report allegations of prohibited conduct, please be aware that the University cannot act to address situations if not notified or otherwise made aware of an incident(s).
- c. **Anonymous Reporting.** Anonymous reports will be reviewed and addressed in the best manner possible. Anonymity may greatly limit Regis University's ability to stop the alleged conduct, collect evidence, or take action against parties accused of violating this Policy.
- d. **Amnesty.** Sometimes complainants or witnesses are hesitant to report to University officials or participate in resolution processes because they fear that they may be accused of policy violations, such as underage drinking, at the time of the incident. To encourage good faith reporting, Regis University pursues a policy of offering reporting parties and witnesses amnesty from minor policy violations related to the incident, such as personal consumption of drugs or alcohol. Regardless of the provision, voluntary use of drugs or alcohol is never a valid defense to a violation of this policy.
- e. **Privileged or Confidential vs. Non-Confidential Resources.** A student or employee who has either been a target of or accused of discrimination, harassment, or sexual misconduct, and wishes to keep their identity and information private and confidential, should seek a confidential resource listed below. A student or employee who has either been a target of or accused of discrimination, harassment, or sexual misconduct, and wishes to report an incident, should seek a non-confidential resource listed below. The non-confidential resources will protect a student or employee's privacy by limiting the people with whom they share the reported information; however, non-confidential resources cannot guarantee complete confidentiality, as they must notify and report to TIXC. Both on and off campus confidential resource contact information can be found on [Regis's Equal Opportunity and Title IX Webpage](#).
 - i. **Privileged or Confidential Reporting Resources.** Privileged or Confidential Employees are employees who are not required to report to the EO and Title IX Coordinator (TIXC) or law enforcement unless there is a statutory duty to do so, such as instances of child abuse and neglect or threats of homicide or suicide. Individuals may elect to report to privileged or confidential resources first if they are unsure of what next steps they would like to take. Privileged or Confidential Employees include:
 - 1. Office of Counseling and Personal Development Counselors and Staff

2. Jesuits and those studying to become a Jesuit (when acting in the capacity as a priest)
 3. University Ministry Staff (excluding peer ministers)
 4. Assistant Director of Victim Advocacy and Violence Prevention
 5. University Spiritual Directors
- ii. **Non-Confidential Reporting Options.** Non-confidential reporting options will take action in response to your report.
1. **Equal Opportunity and Title IX Coordinator (TIXC).** The TIXC is an employee charged with receiving and implementing university processes in response to allegations of discrimination under this Policy. This may include assigning supportive measures, investigating allegations of discrimination, convening hearings, and providing preventative training. The TIXC is not a victim's advocate and administers their duties in a neutral and unbiased manner. They make no determination as to whether there has been a violation of this Policy or what sanctions should be implemented. The TIXC is not an emergency contact person that provides immediate assistance for anyone who has been sexually assaulted or is a victim of a crime. The Title IX Coordinator (TIXC) can be reached at the following:

 2. **Regis University's Campus Safety.** Regis University does not tolerate violence and strongly encourages all persons who feel they may have been a victim of violence while on campus or participating in a University endeavor to report the incident to Regis University's Campus Safety Office. Victims may notify proper law enforcement authorities, including Regis University's Campus Safety and local police; be assisted by Regis's Campus Safety Office in notifying law enforcement authorities if the victim so chooses; or decline to notify such authorities. Information for the 2026-2027 Academic Year

they have been a victim of sexual violence is encouraged to immediately contact the Regis's Campus Safety at (303) 458-4122. An officer will:

- c. Provide a transportation taxi-voucher to the emergency room if requested;

- f. Call the TIXC to assist in the matter.

It is important to preserve any evidence of the incident as it may be necessary to prosecute a crime or obtain an order of protection. An individual is strongly encouraged not to shower, douche, brush teeth, eat, or change clothing in an effort to preserve physical evidence. If a victim changes clothes, a victim is encouraged to put all clothing worn at the time of the incident into a paper bag.

3. **Reporting to Law Enforcement.** Complainants and witnesses have the option to report or decline to report all incidents of sexual misconduct and other incidents of discrimination and harassment that rise to potentially criminal violations to law enforcement. An investigation conducted by the University is distinct from any investigation conducted by law enforcement, and will not automatically be shared with Regis University. A Complainant who wishes for both a Regis University response and a Law Enforcement response will need to report in both locations.

4. **Reporting externally to the US Department of Education.** A person may also file a complaint of discrimination with the United States Department of Education's Office for Civil Rights regarding an alleged violation of Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, Age Discrimination Act of 1975, or Title IX of the Higher Education Amendments of 1972 by visiting www2.ed.gov/about/offices/list/ocr/complaintintro.html, or calling 1-800-421-3481. The U.S. Department of Education Office of Civil Rights is also located at Lyndon Baines Johnson Department of Education Bldg., 400 Maryland Avenue, SW Washington, DC 20202-1100.

- f. **Time Limits on Reporting.** There are no time limits on reporting Sexual Harassment to the TIXC or Regis University. If the Respondent is no longer subject to the Education Program or Activity of Regis University or significant time has passed, Regis will have limited ability to investigate, respond, and/or provide disciplinary sanctions and remedies.
7. **Retaliation** ⁴, **False Complaints, False Information.** Retaliation, false complaints, and false information are prohibited under this Policy. Any individual who retaliates against an individual for the purpose of interfering with any right or privilege secured by this Policy, including but not limited to reporting information, making a complaint, acting as a witness, assisting, or participating or refusing to participate in any manner in any investigation, proceeding, or hearing, including an informal resolution process, or who knowingly or recklessly files a false complaint claiming a violation of this Policy, or who knowingly or recklessly provides false information in the implementation of the process to enforce this Policy, may be subject to disciplinary action ⁵. Regis will not discipline a party, witness, or others participating in the grievance procedures for making a false statement based solely on the determination whether a violation of this Policy occurred.
8. **Initial Response to Reported Sexual Harassment.** Upon receipt of a report of Sexual Harassment, the TIXC will promptly contact the Complainant, regardless of whether the Complainant was the individual who initiated the report. During the initial contact with the Complainant, the Title IX Coordinator will provide the Complainant with notice of their option to have an advisor, explain the process for filing a Formal Complaint, explain

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

the Grievance Process, discuss the availability of Supportive Measures regardless of whether a Formal Complaint is filed, and consider the Complainant's wishes with respect to Supportive Measures.

- a. Availability of **Supportive Measures**. Supportive measures are non-disciplinary, non-punitive individualized services offered as appropriate and as reasonably available to the Complainant or Respondent before or after the filing of a Formal Complaint, or where no Formal Complaint has been filed. Supportive Measures are designed to ensure equal educational access, protect safety, and/or deter any continuation of any prohibited conduct. They may not unreasonably burden either party. They may terminate at the conclusion of the grievance process, unless Regis permits their extension.
 - i. With the advice and consultation of the TIXC, and where appropriate, the Victim Advocate and Violence Prevention Office, the Office of Student Affairs, Student Disability Services, or Human Resource Services, assists students or employees with Supportive Measures such as no contact directives or/and academic, housing, counseling, increased security and monitoring of certain areas of the campus, leaves of absence, changes in class, work, housing, or extracurricular or any other activity, and transportation accommodations, as are reasonably available, regardless of whether or not there is a comparable alternative. Regardless of whether a student or employee decides to report a violation of this Policy, supportive measures and accommodations are available upon the either party's request and will be implemented when they are reasonably available.
 - ii. Regis will maintain any accommodation or supportive measures provided to the victim confidential to the extent that maintaining such confidentiality would not impair the ability of the institution to provide the accommodation or supportive measure(s).
 - iii. At any time, a student or employee may seek a court-issued protective order at the Denver Court Clerk's Office via phone number 303-606-2300. If an order of protection, no contact directive, restraining order, or another similar lawful order issued by a criminal, civil, or tribal court is obtained, a copy should be provided to Regis University's Campus Safety Department and the TIXC. The University and Regis's Campus Safety Department will take all legal and reasonable steps to implement such an order.
- b. The TIXC will provide written notification to students and employees about existing resources available for victims within the institution for counseling, health, mental health, victim advocacy, legal assistance, visa and immigration assistance, and student financial aid, and other services, available for victims.

Information for the 2026-2027 Academic Year

- c. Emergency Removal. In cases where University officials have reasonable fears about safety on campus due to a Respondent's continued presence on campus following a report of Sexual Harassment, the University reserves the right to remove the Respondent on an emergency basis. Regis University will only conduct an emergency removal after:
 - i. Undertaking an individualized safety and risk analysis,
 - ii. Determining that an immediate threat to the physical health or safety of any student or other individual arising from the allegations of Sexual Harassment justifies removal, and
 - iii. Providing the Respondent with notice and an opportunity to challenge the decision to the TIXC within three (3) Business Days following the removal.
 - d. Administrative Leave. Regis may place a non-student employee Respondent on administrative leave during the pendency of the grievance process in this Policy.
9. Formal Complaint. Regis University will investigate all allegations of Sexual Harassment in a Formal Complaint.
- a. A Formal Complaint must:
 - i. Contain an allegation of Sexual Harassment against a Respondent;
 - ii. Request that Regis University investigate the allegation; and
 - iii. Be signed by the Complainant or Title IX Coordinator
 - b. In limited circumstances, if a Complainant does not sign a Formal Complaint, the TIXC may sign a Formal Complaint. In determining whether to sign a Formal Complaint, the TIXC will consider factors that include but are not limited to:
 - i. Whether there have been other reports of Sexual Harassment and other relevant misconduct concerning the same Respondent, whether or not the incidents occurred while the Respondent was a Regis University student or employee;
 - ii. Whether the Respondent threatened further Sexual Harassment or other misconduct against the Complainant or others;
 - iii. Whether the alleged Sexual Harassment was committed by multiple perpetrators;
 - iv. The nature and scope of the alleged Sexual Harassment including whether the Sexual Harassment was perpetrated with a weapon;
 - v. The ages and roles of the Complainant and the Respondent;
 - vi. Whether Regis can pursue the investigation without the participation of the Complainant (e.g., whether there are other available means to obtain

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

relevant evidence of the alleged Sexual Harassment such as security cameras or physical evidence);

- vii. Whether the report reveals a pattern of perpetration (e.g., perpetration involving illicit use of drugs or alcohol) at a given location or by a particular group.

- c. Consolidation of Formal Complaints. Regis may consolidate Formal Complaints of Sexual Harassment against more than one Respondent, or by more than one Complainant against one or more Respondents, or by one party against another party, when the allegations arise out of the same facts or circumstances.

10. Dismissal of Formal Complaints.

- a. Required Dismissal. The TIXC will dismiss a Formal Complaint of Sexual Harassment if:
 - 1. The complaint would not constitute a violation of this Policy even if proved;
 - 2. The conduct alleged did not occur in the Education Program or Activity of Regis University; or
 - 3. The conduct alleged did not occur against a person in the United States.
- b. Permissive Dismissal. The TIXC may dismiss a Formal Complaint or any allegations within the Formal Complaint, if at any time during the investigation or hearing:
 - 1. The complaint notifies the TIXC in writing that the Complainant would like to withdraw the Formal Complaint or any allegations therein and the TIXC declines to initiate a complaint;
 - 2. The Respondent is not participating in Regis's education program or activity and is not employed by Regis; or
 - 3. Specific circumstances prevent the University from gathering evidence sufficient to reach a determination as to the Formal Complaint or allegations therein.
- c. Appeal of Dismissal. Either party may appeal the dismissal of a Formal Complaint or any allegations therein. For information on how to appeal, see Appeals below.

- 11. **Grievance Process.** Regis University has adopted a grievance process that provides for the prompt and equitable resolution of Formal Complaints. This process provides procedures for formally or informally addressing Formal Complaints of Sexual Harassment. Remedies are provided to a Complainant where a determination of responsibility for Sexual Harassment has been made against a Respondent, and Disciplinary Sanctions are not imposed against a Respondent prior to the completion of the grievance process.

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

- a. General Grievance Process Information.
 - i. Timeframes for Grievance Process. The University will strive to resolve a complaint within one hundred and twenty (120) calendar days of receiving it, though certain resolutions may take longer depending on the circumstances. If resolution will take longer than one hundred and twenty (120) calendar days for good cause, the parties will be given notice and an explanation in writing. Examples of good cause for delay may include but are not limited to considerations such as the absence of a party, a party's advisor, or a witness; concurrent law enforcement activity; or the need for language assistance or an accommodation of disabilities. Delays for good cause will typically not exceed 10 calendar days. The University's internal investigation is separate from the investigation of outside law enforcement agencies, and the University will only delay its investigation due to an outside investigation if particular circumstances warrant such a delay.
 - ii. Notice of Meetings, Interviews, and Hearings. Parties and witnesses will be provided notice of any meeting, interview, and/or hearing with sufficient time to prepare to participate. The notice will include the date, time, location, participants and purposes of the meeting, interview, and/or hearing.
- b. Notice of Allegations. Upon receipt of a Formal Complaint, Regis will provide Notice of Allegations to the parties who are known. The Notice of Allegations will contain the following information:
 - i. The party's rights and options.
 - ii. Regis's grievance process and any informal resolution process.
 - iii. Sufficient information available at the time to allow the parties to respond to the allegations, including the identities of the parties involved in the incident(s), the conduct alleged to violate this Policy, and date(s) and location(s) of the alleged incident(s).
 - iv. The Respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility is made at the conclusion of the grievance process.
 - v. The parties may have an advisor of their choice, who may be, but is not required to be an attorney, and that the advisor may inspect and review evidence.
 - vi. The Employee Handbook and Ranger Guide provision that prohibits knowingly making false statements or knowingly submitting false information during the grievance process.
 - vii. A statement that Retaliation is prohibited.

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

- viii. The parties are entitled to an equal opportunity to access the relevant and not otherwise impermissible evidence. If, in the course of an investigation, Regis decides to investigate additional allegations of violations of this Policy by the Respondent that are not included in the notice, Regis will update the Notice of Allegations and notify the parties in writing of the additional allegations.
- c. **Investigation and Procedures.** The University investigation and resolution proceedings shall be an prompt, fair, and impartial investigation of Formal Complaints.
 - i. **Presumption of Not Responsible.** The Respondent is presumed not responsible for the alleged conduct unless a determination regarding responsibility is made at the end of a grievance process.
 - ii. **Burden of Proof and Burden of Gathering Evidence.** The burden is on Regis, not the parties, to conduct an investigation that gathers sufficient evidence to reach a determination regarding responsibility. All investigations and proceedings, including hearings, related to Sexual Harassment will be conducted using a “preponderance of the evidence” (more likely than not) standard.
 - iii. **Medical Records.** Regis will not access, consider, disclose, or otherwise use party’s records that are that are made or maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting in the professional’s or paraprofessional’s capacity, or assisting in that capacity, and which are made and maintained in connection with the provision of treatment to the party, unless Regis obtains that party’s voluntary, written permission to do so for the grievance process within the Policy.
 - iv. **Privileged Information.** Regis will not require, allow, rely upon, or otherwise use questions or evidence that constitute, or seek disclosure of, information protected under a legally recognized privilege, unless the person holding the privilege has waived the privilege.
 - v. **Investigation of Formal Complaint.** During the investigation and resolution of a Formal Complaint, Regis will treat Complainants and Respondents equitably. During all meetings and interviews the parties may be accompanied by an advisor of their choice, which can be, but is not required to be an attorney. The advisor’s role is limited to assisting, advising, and/or supporting a Complainant or Respondent. An advisor is not permitted to speak for or on behalf of a Complainant or Respondent or appear in lieu of a Complainant or Respondent.

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

1. **Opportunity to Provide Information and Present**

Witnesses. Each party will be provided an equal opportunity to provide information to the investigator and present witnesses for the investigator to interview. The information provided by the parties can include inculpatory and exculpatory evidence. The witnesses can include both fact witnesses and expert witnesses.

2. **Opportunity to Inspect and Review Evidence.** Each party will be provided an equal opportunity to inspect and review any evidence obtained as part of the investigation that is directly related to the allegations raised in the Formal Complaint, including evidence upon which Regis does not intend to rely upon in reaching a determination regarding responsibility. This review includes inculpatory and exculpatory evidence that is obtained by a party, witness, or other source. Each party and their advisor (if any) will be provided an electronic copy of the evidence for inspection and review. The parties will have ten (10) Business Days to review and submit a written response to the investigator. The investigator will consider the written responses prior to completing an investigative report. All evidence provided during the inspection and review phase will be available for the purposes of the hearing.

- a. **Investigative Report.** Following the opportunity to inspect and review evidence directly related to the allegations raised in the Formal Complaint, the investigator will create an investigative report that fairly summarizes relevant evidence obtained during the investigation. At least ten (10) Business Days prior to the hearing, the investigator will provide each party and the party's advisor (if any) an electronic copy of the investigative report for their review and written response.
- b. **Investigation Timeframe.** The investigation of a Formal Complaint shall be concluded within 90 Business Days of the filing of a Formal Complaint. The parties will be provided updates on the progress of the investigation.

- d. **Live Hearing.** At the conclusion of the investigation, Regis will provide for a live hearing for all allegations of Sexual Harassment that have not been dismissed or resolved through the Informal Resolution Process ⁶. At the request of either party, or at the discretion of the TIXC, Regis will provide for the live hearing to occur with the parties located in separate rooms with technology enabling the decision-

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

makers and parties to simultaneously see and hear the other party or witness answering questions.

- i. **Decision-Makers.** The TIXC will convene Regis's Hearing Panel, who will oversee the hearing and make a determination regarding responsibility based on the preponderance of the evidence standard. The Hearing Panel shall consist of three (3) volunteer employees. The Hearing Panel will not include the Title IX Coordinator or the individual who served as the Investigator. The Hearing Panel will be trained, impartial, and without a conflict of interest. The TIXC or designee will appoint a Chair of the Hearing Panel.
- ii. **Challenge to the decision-makers.** Either party may challenge the appointment of a decision-maker, based on conflict of interest or bias, in writing to the TIXC no less than five (5) Business Days prior to the scheduled hearing.
- iii. **Right to an Advisor.** The Complainant(s) and Respondent(s) may each have one (1) advisor of their choice at the live hearing or any related meeting. The advisor may be, but is not required to be, an attorney. If a party does not obtain their own advisor, the University will appoint one for them from a voluntary pool of Advisors trained by the TIXC. Advisors are required to cross-examine all parties and witnesses but may not answer questions on behalf of their party or otherwise participate in the hearing. Regis University may permit parties to have more than one Advisor upon special request to the TIXC. The decision to grant this request is at the sole discretion of the TIXC and will be granted equitably to all parties.
 1. Choosing an Advisor who is also a witness in the process creates potential for bias and conflict-of-interest. A party who chooses an Advisor who is also a witness can anticipate that issues of potential bias will be explored by the Hearing Panel.
 2. The parties are expected to inform the Investigator(s) and TIXC of the identity of their Advisor at least two (2) Business Days before the date of their first meeting with Investigators, or as soon as possible if a more expeditious meeting is necessary or desired.
 3. A party may elect to change Advisors during the process and is not obligated to use the same Advisor throughout.
 4. The parties are expected to provide timely written notice to the TIXC if they change Advisors at any time. It is assumed that if a party changes Advisors consent to share information with the previous Advisor is terminated, and a release for the new Advisor must be secured. The Advisor may be a friend, mentor, family

Information for the 2026-2027 Academic Year

member, attorney, or any other individual a party chooses to advise, support, and/or consult with them throughout the resolution process. The parties may choose Advisors from inside or outside of the Regis University community.

5. If the parties choose an Advisor from outside the pool of those identified by the TIXC, the Advisor may not be trained by the TIXC and, thus, may not be familiar with University policies and procedures.
6. Under U.S. Department of Education regulations applicable to Title IX, cross-examination is required during the hearing and must be conducted by the parties' Advisors. The parties are not permitted to directly cross-examine each other or any witnesses. If a party does not have an Advisor for a hearing, the TIXC will appoint a trained Advisor for the limited purpose of conducting any cross-examination. A party may reject this appointment and choose their own Advisor, but they may not proceed without an Advisor. If the party's Advisor will not conduct cross-examination, TIXC will appoint an Advisor who will do so thoroughly, regardless of the participation or non-participation of the advised party in the hearing itself.
7. The parties may be accompanied by their Advisor in all meetings and interviews at which the party is entitled to be present, including intake and investigation interviews. Advisors should help the parties prepare for each meeting and are expected to advise ethically, with integrity, and in good faith.
8. All Advisors are subject to the same University policies and procedures, whether or not they are attorneys.
9. Advisors are expected to advise their advisees without disrupting proceedings.
10. The parties are expected to respond to questions on their own behalf throughout the investigation phase of the resolution process. Although the Advisor generally may not speak on behalf of their advisee, the Advisor may consult with their advisee, either privately as needed, or by conferring or passing notes during any resolution process meeting or interview. For longer or more involved discussions, the parties and their Advisors should ask for breaks to allow for private consultation.
11. Any Advisor who oversteps their role as defined by this Policy will be warned only once. If the Advisor continues to disrupt or otherwise fails to respect the limits of the Advisor role, the meeting

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

will be ended, or other appropriate measures implemented. The TIXC will determine how to address the Advisor's non-compliance and future role.

12. Advisors are expected to maintain the privacy of the records shared with them. These records may not be shared with third parties, disclosed publicly, or used for purposes not explicitly authorized by the university. The university may seek to restrict the role of any Advisor who does not respect the sensitive nature of the process or who fails to abide by the university's privacy expectations.
 13. Regis University generally expects an Advisor to adjust their schedule to allow them to attend meetings, including investigation interviews. Scheduled meetings may change to accommodate an Advisor's inability to attend, if doing so does not cause an unreasonable delay.
 14. Regis University may make reasonable provisions to allow an Advisor who cannot attend in person to attend a meeting by telephone, video conferencing, or other similar technologies as may be convenient and available.
- iv. **Recording of the Hearing.** Regis will create an audio or audiovisual recording of all live hearings and make the recording available to the parties for inspection or review.
 - v. **Hearing Process Facilitator.** Regis may designate a hearing process facilitator to coordinate the hearing, including, but not limited to, coordination and scheduling of the hearing, the logistics of physical or virtual rooms for parties and/or witnesses, including separation of parties; ensuring all technology is working appropriately; ensuring the parties have access to electronic documents during the hearing; distributing materials; etc. The facilitator may also be the Title IX Coordinator. The facilitator may invite the parties and their advisors, separately, to a meeting prior to the hearing to review the hearing process for the purpose of ensuring a smooth hearing. This meeting is separate from any pre-hearing conference as discussed below.
 - vi. **Pre-Hearing Matters.** To streamline the hearing process, the Hearing Panel may request the submission of questions prior to the hearing through electronic submission and/or a pre-hearing conference.
 1. **Pre-Hearing Submission of Questions.** The Hearing Panel Chair may request the parties submit questions, in writing, prior to the hearing. This submission does not preclude the advisor from

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

asking additional questions live during the hearing. The Chair may allow for the pre-hearing submission of questions regardless of whether a pre-hearing conference occurs.

2. **Pre-Hearing Conference.** The Hearing Panel Chair may hold a pre-hearing conference to further streamline the live hearing, especially in complex cases involving multiple Complainants, Respondents, and/or a significant number of witnesses. During the pre-hearing conference, parties and their advisors will meet with the Chair separately to review written questions previously submitted and/or to submit, in writing, any questions they wish to ask during the live hearing so that the Chair can be prepared to respond to the relevancy of said questions during the live hearing. The Chair may discuss any preliminary relevancy determinations regarding submitted questions and/or discuss alternative ways in which to ask questions; however, the Chair will make final relevancy determinations in real-time, orally, during the live hearing. This conference does not preclude the advisor from asking additional questions live during the hearing. At the pre-hearing conference, the decision-maker may also hear arguments regarding the relevance of the evidence identified in the investigation report as relevant or not relevant, and/or related to the allegations.
- vii. **Hearing Documents.** The Hearing Panel or hearing facilitator will provide parties with a copy of all materials provided to the Hearing Panel about the matter.
- viii. **Accommodation Requests.** Participants in need of disability related accommodations and/or interpretation services during the hearing must contact the TIXC with said requests five (5) Business Days prior to the hearing.
- ix. **Participants in the Hearing.** Participants in the hearing include the Hearing Panel, the investigator(s) who are conducting the investigation, the parties, advisors to the parties, witnesses and anyone providing authorized accommodations. In addition, Regis may have a hearing facilitator present. Any witnesses scheduled to participate in the hearing must have been first interviewed by the investigator or have provided a written statement or answered questions from the investigator in writing. The Hearing Panel Chair or hearing facilitator will provide the names of all persons participating in the hearing to the parties in the Notice of Hearing described below.

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

- x. **Hearing Process.** The live hearing will include the following phases.
1. Notice of Hearing. After the investigative report has been completed and at least ten (10) Business Days prior to the date set for the hearing, the parties and their advisors (if any) will be provided with a Notice of Hearing. The Notice will include the date, time, location, names of the Hearing Panel, names of all participants in the hearing, and the location (virtual or in person) of the hearing. Note that advisors/complainant/respondent inability to attend hearings will not change hearing dates.
 2. Opening Statements. Each party will have the opportunity to present an opening statement to the Hearing Panel.
 3. Questioning of Hearing Participants. Questions of parties and witnesses will occur in the following manner.
 - i. By the Hearing Panel. the Hearing Panel Chair will ask initial questions of the participants at the hearing.
 - ii. By the Advisors. After the Hearing Panel Chair asks questions of a participant, each party's advisor will be permitted to ask relevant questions and follow up questions orally, directly, and in real time of the participant. The parties are never permitted to ask questions of participants directly.
 - iii. Before a Complainant, Respondent, or witness answers a cross-examination or other question, the Hearing Panel must first determine whether the question is relevant and explain any decision to exclude a question as not relevant.
 4. Evidence and Questions Excluded. The following types of evidence, and questions seeking that evidence, are impermissible (i.e., will not be accessed or considered, except by Regis to determine whether one of the exceptions listed below applies; will not be disclosed; and will not otherwise be used).
 - i. Sexual Predisposition or Prior Sexual Behavior of the Complainant ⁷. Questions about the Complainant's sexual predisposition or prior sexual behavior are not relevant and will not be permitted, unless offered to prove that someone other than the Respondent committed the conduct alleged by the Complainant, or if the questions and evidence concern specific incidents of the

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

Complainant's prior sexual behavior with respect to the Respondent and are offered to prove Consent. The fact of prior consensual sexual conduct between the Complainant and Respondent does not by itself demonstrate or imply the Complainant's Consent to the alleged Sexual Harassment or preclude determination that Sexual Harassment occurred.

- ii. **Privileged Information.** Evidence that is protected under a privilege recognized by Federal or State law or evidence provided to a confidential employee, unless the person to whom the privilege or confidentiality is owed has voluntarily waived the privilege or confidentiality
- iii. **Medical Records.** A party's or witness's records that are made or maintained by a physician, psychologist, or other recognized professional or paraprofessional in connection with the provision of treatment to the party or witness, unless Regis obtains that party's or witness's voluntary, written consent for use in its grievance procedures; and

5. **Party or Witness Does Not Submit to Cross-examination.** If a Complainant or Respondent or witness fails to appear at a scheduled hearing, the Hearing Panel may proceed with the hearing, unless the Chair excuses the absence at which point a new hearing date will be selected. If a party or witness does not submit to cross-examination by an advisor at the live hearing, the Hearing Panel will not rely on any statement of that party or witness in reaching a determination regarding responsibility. However, members of the Hearing Panel may not make negative inferences regarding responsibility based solely on refusal to participate in the process, submit to cross-examination or answer questions from the Hearing Panel.

6. **Closing Statements.** Each party will have the opportunity to present a closing statement to the Hearing Panel.

12. **Determination Regarding Responsibility.** Following the hearing, the Hearing Panel shall meet and render a determination regarding responsibility by a majority vote. Hearing Panel deliberations shall not be recorded. Within ten (10) Business Days after the hearing, the Hearing Panel's determination shall be written by the Chair and provided to the Complainant and Respondent simultaneously.

- a. The written notice of determination will include the following:

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

- i. Identification of the allegations,
 - ii. description of the procedural steps taken from the receipt of a Formal Complaint through the determination (including any notifications to the parties, interviews with parties and witnesses, site visits, methods used to gather other evidence, and hearings held),
 - iii. findings of fact supporting the determination
 - iv. conclusions regarding the application of this Policy to the facts
 - v. a statement of, and rationale for, the result as to each allegation, including a determination regarding responsibility
 - vi. any disciplinary sanctions that Regis imposes on the Respondent,
 - vii. whether remedies designed to restore or preserve equal access to the education program or activity of Regis will be provided to the Complainant ⁸, and
 - viii. the procedures and permissible bases for the Complainant and Respondent to appeal.
- b. The decision of the Hearing Panel shall be final and binding unless appealed following the process outlined below. A copy of the Hearing Panel's written determination shall be provided to the TIXC and the Dean of Students for student Respondents, or the immediate supervisor for employee Respondents.
 - i. In cases against employees, the direct supervisor of the Respondent may postpone the sanctions or suspend the Respondent, with pay, until the time to appeal the determination has expired or the appeal process has been exhausted.
 - ii. In cases against students, the Dean of Students or designee may execute an interim suspension pending appeal under the Interim Action section of the [Student Handbook](#).
- c. Following a determination that a violation of this Policy occurred, the TIXC will, as appropriate,
 - i. Coordinate the provision and implementation of remedies to a Complainant and other people Regis identifies as having had equal access denied by discrimination;
 - ii. Coordinate the imposition of any disciplinary sanctions on a Respondent, including notification to the Complainant of any such disciplinary sanctions; and
 - a. Upon written request, Regis will disclose to the Complainant of a crime of violence or a non-forcible sex offense the report on the result of any disciplinary proceeding conducted by the institution against a student

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

- b. If the Complainant is deceased as a result of such crime or offense, the next of kin of such victim shall be treated as the Complainant only for purposes of this paragraph.
- iii. Take other appropriate prompt and effective steps to ensure that sex discrimination does not continue or recur within Regis's education program or activity.

13. Disciplinary Sanctions.

- a. Violations of this Policy are subject to disciplinary action. Neither the Hearing Panel nor any appeals body or officer(s) will deviate from the range of recommended sanctions unless compelling justification exists to do so. This will be documented in the decision-making process, if applicable, and included in the written outcome. Decisions are made with consideration of the severity of the incident, and any previous disciplinary violations, as well as discipline imposed in similar cases. Possible sanctions for a person found to be in violation of this Policy include, but are not limited to, the following:
 - i. Oral or written reprimand;
 - ii. Required attendance at a harassment/discrimination sensitivity program;
 - iii. Oral or written warning;
 - iv. Loss of salary or benefits or demotion;
 - v. Transfer or change of job, class, residential assignment, or location, including removing the person from being able to retaliate or further harass or discriminate against the Complainant;
 - vi. Suspension, probation, termination, dismissal, expulsion, or removal from campus;
 - vii. Educational and Developmental sanctions; or
 - viii. Other action Regis University deems appropriate under the circumstances including termination of contractual arrangements with the University.
 - 1. While counseling is not considered a sanction, it may be offered or required in combination with sanctions.
 - 2. If a student or student groups are found to be in violation of this Policy, any of the sanctions set forth in the [Student Handbook](#) may also be implicated.
 - 3. If faculty or employees are found to be in violation of this Policy, any of the sanctions set forth in the Employee Handbook or any Faculty Handbooks may also be implicated.
 - ix. Failure to comply with sanctions shall constitute a violation of this Policy and will ordinarily result in further disciplinary action.

- b. **For sanctions following Formal Complaints against students.** The Hearing Panel will recommend sanctions after the hearing. The Dean of Students or designee will review and implement sanctions.
 - c. **For sanctions following Formal Complaints against faculty or staff.** The Hearing Panel will recommend sanctions after the hearing. The employee's respective supervisor will review and implement sanction(s). However, should the supervisor or Provost seek to impose suspension or expulsion of a tenure or tenure-track faculty member, additional process may be due pursuant to the [Faculty Handbook](#).
14. **Appeals Process.** The Complainant or Respondent can appeal the Hearing Panel's determination regarding responsibility, or the dismissal of a Formal Complaint or any allegations therein, by submitting a written appeal to the TIXC within three (3) Business Days from the date of receipt of the Hearing Panel's determination. The appeal must be dated, signed by the party appealing, indicate the basis for the appeal, and include a copy of the determination. The non-appealing party will be notified in writing when an appeal has been filed. The non-appealing party will be provided five (5) Business Days to submit a written statement in support of the outcome of the determination or dismissal.
- a. **Basis for Appeal.** Appeals of the determination of responsibility or the dismissal of a Formal Complaint may be made on the following bases.
 - i. Procedural irregularity that affected the outcome of the matter;
 - ii. New evidence that was not reasonably available at the time the determination regarding responsibility or dismissal was made that could affect the outcome of the matter; and
 - iii. The TIXC, investigator(s), or Hearing Panel had a conflict of interest or bias for or against the Complainants or Respondent that affected the outcome of the matter.
 - b. **Appeal Procedures.** The Dean of Students for Students shall serve as the Appeal Body for all students, and the AVP of Human Resources shall serve as the Appeal Body for Employees, with exceptions permitted as appropriate. The Appeal Body shall not include the same decision-makers as the Hearing Panel that reached the determination regarding responsibility, the investigator, or the Title IX Coordinator. The Appeal Body will issue a written determination within fifteen (15) Business Days of the receipt of the notification of appeal that includes the result of the appeal and the rationale for the result. A copy of the written decision shall be provided to all parties simultaneously, the TIXC, immediate supervisor, Dean of Students, or Human Resources, and the parties' personnel or student files. All decisions of the Appeal Body are final and binding.

- c. Appeal Outcomes. The Appeal Body may take one of the following actions in response to the appeal:
 - i. Affirm the Hearing Panel's determination regarding the Respondent's responsibility and affirm the disciplinary sanctions and remedies, if applicable;

 - iii. Remand the process back to the hearing stage for the Hearing Panel to remedy any procedural irregularity or consider new evidence;
 - iv. Reverse the Hearing Panel's determination of the Respondent's responsibility and amend the disciplinary sanctions and remedies; if applicable.
- 15. Informal Resolution. At any time after a Formal Complaint has been signed and before a determination regarding responsibility, the Parties may choose to participate in an Informal Resolution facilitated by Regis, that does not involve a full investigation and adjudication. The informal process is voluntary for all parties. If the Complainant and Respondent are able to reach a resolution, the results will be documented, signed by both parties, retained by TIXC for seven (7) years and the matter will be resolved. If an informal resolution cannot be reached, the formal grievance process will resume, and all statements made during the informal resolution process will not be used for or against either party (and the Hearing Panel and/or Appeal Body may not consider any such statement made during informal resolution).
 - a. Informal Resolution Notice. Before the initiation of an informal resolution process, Regis will explain in writing to the parties:
 - i. The allegations
 - ii. The requirements of the informal resolution process
 - iii. That any party has the right to withdraw from the informal resolution process and resume the grievance process at any time before agreeing to a resolution
 - iv. That if the parties agree to a resolution at the end of the informal resolution process, they cannot initiate or resume a Formal Complaint arising from the same allegations
 - v. That potential terms that may be requested or offered in an informal resolution agreement, including notice that an informal resolution agreement is binding only on the parties; and
 - vi. That the informal resolution records will be maintained by Regis for seven (7) years but will not be used by investigators or the Hearing Panel if the Title IX grievance process resumes.

- b. Agreement to Enter Informal Resolution. Prior to entering the informal resolution process, the parties must voluntarily agree, in writing to the use of the informal resolution process.
 - c. Informal Resolution Availability. The informal resolution is not permitted to resolve allegations that an employee committed Sexual Harassment against a student.
 - d. Informal Resolution Timeframe. Informal Resolution of a Formal Complaint will be concluded within 45 Business Days of notice to Regis that both parties wish to proceed with the informal resolution process. Such notice that parties wish to proceed with an informal resolution process will “pause” the counting of the timeframe to conclude the grievance process of this Policy, should the informal resolution process fail and the parties resume the grievance process.
16. Recordkeeping. Regis will maintain all documentation related to reports of Sexual Harassment, Formal Complaints, the grievance process, and informal resolution process for seven (7) years in accordance with state and federal records laws and requirements. The documentation of all records is private and confidential to the extent possible under law. Student records of the grievance process are disciplinary records under Family Education Rights and Privacy Act (FERPA). Regis will complete and maintain publicly available recordkeeping, including Clery Act reporting and disclosures, without the inclusion of personally identifying information about the victim, as defined in section 40002(a)(20) of the Violence Against Women Act of 1994 (42 USC 13925(a)(20)).
17. Notification. Regis will use email communication for purposes of communication and notification under this Policy.
18. Dissemination of Policy. This Policy will be made available to all Regis faculty, staff, and students online at the Regis University Title IX webpage and Annual Security and Fire Safety Report.
19. Modification and Review of this Policy. Regis reserves the right to modify this Policy to take into account applicable legal requirements. Regis will regularly review this Policy to determine whether modifications should be made. Regis will follow the law when there is conflict between the Policy and the law.
20. Other Policies. This Policy takes precedence over other Regis University policies and procedures concerning Sexual Harassment under Title IX in the event of a conflict. Additionally, alleged violations of the Ranger Guide, Employee Handbook, or other policies that arise from the same events as the alleged Sexual Harassment under this Policy will be investigated and resolved under the grievance process in this Policy unless the Sexual Harassment has been dismissed under this Policy.

EMERGENCY RESPONSE PROCEDURES

The Regis University Emergency Operations Plan (EOP) is designed as a resource for University personnel, administrators, students and Emergency Operations Center (EOC) personnel assisting with information and guidelines to plan and respond to a crisis. While the Plan does not cover

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

every conceivable contingency, it follows the principles on the All-Hazards Response that is supported and utilized by the Federal Emergency Management Agency.

Regis University has a group of trained and experienced professionals who will respond in the event of a campus emergency. This Emergency Response Team consists of members from the University Department of Campus Safety, Physical Plant, Information Technology, Residence Life & Housing, Campus Counseling Services, Dining, Auxiliary and Business Services, Finance and Budget, University Relations, Marketing and Communications and Senior Leadership.

EMERGENCY MANAGEMENT TESTS

Regis University's Campus Safety Department is responsible for scheduling and coordinating emergency response and evacuation tests. These tests may be announced or unannounced and may be conducted in collaboration with other University departments and external agencies, as appropriate.

The University conducts emergency management tests at least annually. For purposes of this policy, a test includes regularly scheduled drills, exercises, and related follow-up activities designed to evaluate the effectiveness of emergency response plans, procedures, and capabilities.

To ensure community preparedness, the University publicizes its emergency response and evacuation procedures at least once each year. This information is distributed through campus-wide communications, including email and the RU Alert mass notification system, and in conjunction with emergency response exercises or drills that satisfy the requirements of the Higher Education Opportunity Act (HEOA).

Emergency response and evacuation tests are intended to:

- Assess the effectiveness of emergency response and evacuation procedures.
- Evaluate communication and coordination among University departments and external response agencies.
- Familiarize students, faculty, staff, and visitors with emergency notification and evacuation processes.
- Identify opportunities for improvement in the University's emergency preparedness and response capabilities.

Following each test, the University may conduct reviews and after-action assessments to evaluate performance and incorporate lessons learned into future planning, training, and preparedness efforts.

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

Each year, the test is documented and includes a description of the exercise, the date and time of the exercise and whether it was announced or unannounced.

In 2025 the University conducted one **Emergency Evacuation** and **Lockdown Exercise** that was announced:

- Operation Callout – May 30-2025

How to Find Emergency Management Information

General information about the emergency response and evacuation procedures is available on the Regis Emergency Preparedness Guide at:

[Emergency Preparedness Guide](#)

The Emergency and Crisis Management Response Guide:

[Classroom Emergency Guide](#)

EVACUATION DRILLS

Evacuation and fire drills are scheduled and coordinated by Regis University's Environmental Safety and Health Officer (ESHO) for all residential, administrative, and educational buildings to assess and evaluate the emergency evacuation plan and capabilities. Evacuation and fire drills are unannounced and are held at least once per calendar year. When evacuation drills are held, the ESHO, Campus Safety, and Residence Life & Housing Staff monitor the evacuation to evaluate egress, routes to assembly areas, and other behavioral patterns. Reports are prepared by participating departments by identifying deficient equipment, so repairs can be made immediately. Recommendations for improvements are also submitted to the appropriate departments/offices for consideration.

The Housing and Residential Engagement staff are trained in correct fire and safety procedures, including evacuation spots and sheltering procedures in the residential halls. These topics are reiterated throughout the year during monthly in-services, Health & Safety Inspections, and our beginning of semester trainings.

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

EVACUATION PROCEDURES

When necessary, evacuations will be conducted for students, faculty, staff, and visitors in the affected building(s). Several types of evacuations may be required depending on the nature of the incident. The most common type of evacuation occurs in response to a fire alarm.

When an evacuation is deemed necessary, notification may be issued through the RU Alert System as an Emergency Notification. Alerts may be distributed via email, text message, and voice message to registered mobile devices.

All campus administrators, particularly those whose authority and responsibilities include the operational areas outlined in this manual, are required to adhere to these procedures. Exceptions to these crisis management procedures may be authorized only by University administrators who are designated to direct and/or coordinate emergency operations and only when necessary to support an effective emergency response.

Fire Alarm Evacuation Procedures

1. Fire Alarm Activation

A fire alarm is indicated by the sounding of horns and the activation of strobe lights within the affected building(s).

2. Know Your Exits

All students, faculty, staff, and visitors should remain aware of their surroundings and familiarize themselves with the location of the nearest exits at all times.

3. Immediate Evacuation

If you discover or suspect a fire, immediately evacuate the building using the nearest safe exit. Do not attempt to extinguish a fire unless you have received appropriate training and it is safe to do so.

Supervisors and personnel responsible for specific areas should, when possible, verify that occupants have evacuated. Once outside, they should account for personnel and promptly report any missing individuals to Campus Safety, law enforcement, or fire department personnel.

4. Alarm Notification

As you evacuate, activate the nearest fire alarm pull station if the alarm has not already been activated. If the alarm system fails to operate, warn other occupants by shouting a warning and knocking on doors as you exit the building.

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

5. Assembly Areas

After evacuating, proceed immediately to the designated assembly area identified on the building evacuation maps located near building exits. If you are unfamiliar with the designated assembly area, move to a safe location away from the building and upwind of any smoke or hazardous conditions.

6. Individuals Requiring Assistance

Students, faculty, staff, and visitors with mobility impairments or other conditions that prevent independent evacuation should proceed to a designated Area of Rescue Assistance, if possible, and remain there until assistance arrives.

Campus Safety personnel will attempt to assist with evacuation when conditions permit. If evacuation assistance cannot be provided safely, responding firefighters will search designated rescue areas and provide assistance as part of their emergency response operations.

7. Assisting Others

If it is safe to do so, individuals may assist persons with disabilities or other special needs during an evacuation. Assistance may include helping them reach the nearest Area of Rescue Assistance, typically located at stairwell landings or other designated locations identified by signage.

After providing assistance, continue evacuating and notify a supervisor, manager, Campus Safety Officer, or other responding emergency personnel of the individual's location.

8. Emergency Reporting

After reaching a safe location, contact Campus Safety at (303) 458-4122 using a landline or mobile phone and provide as much information as possible regarding the situation.

Do not assume that another person has reported the incident or that the alarm notification has automatically alerted Campus Safety. If Campus Safety cannot be reached, call 911 immediately.

9. Re-Entry Restrictions

No person shall re-enter an evacuated building until authorization has been provided by:

- The Fire Department, in the case of an actual fire; or
- Campus Safety personnel or other emergency responders on scene, in the case of a non-fire alarm activation.

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

10. Reporting Requirements

For safety, compliance, and statistical reporting purposes, all fires and fire alarm incidents, regardless of size or whether the fire has been extinguished, must be reported to Campus Safety for proper documentation and classification.

Bomb Threat

In the event of a bomb threat, evacuation routes out of the building(s) will be determined by Campus Safety and/or first responders to ensure safe egress out of the building. The assembly areas will be determined by Campus Safety / First Responders to ensure that personnel are a safe distance from the threat. Reentry of the building will be allowed after the all-clear has been given by law enforcement.

Other types of evacuations encompass other crisis events such as active shooters/active killers, and other types of violent intruders. Depending on the situation, evacuations in these circumstances may not always be an option where other strategies may have to be used such as locking down and barricading your location. If you can evacuate, move far away from the threat and when it is safe to do so contact 911 and Campus Safety.

Post-Incident Procedures

Upon completion of the incident, the Fire Department, emergency responders, or other appropriate emergency officials shall release the building to the Incident Commander when it is safe to do so. The facility may be declared:

- All Clear, allowing normal re-occupancy; or
- Clear with Conditions, allowing re-occupancy subject to specific restrictions or safety measures.

The Incident Commander, or their designee, shall communicate the building status and any applicable instructions to occupants. Once an All Clear has been received from fire, law enforcement, or other responding authorities, an RU Alert notification will be issued, when appropriate, to inform the campus community that normal operations may resume.

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

Re-Occupancy Assistance

As occupants re-enter the building, faculty, staff, and supervisors should remain aware of individuals who may have disabilities or other access and functional needs. When reasonable and safe to do so, they should offer assistance to help ensure a safe and orderly return to normal operations.

Shelter-in-Place Procedures – What it Means to “Shelter-in-Place”

In certain emergencies, it may be safer to remain indoors rather than evacuating. A shelter-in-place directive may be issued when conditions outside the building present a threat to health or safety, such as the release of hazardous materials, severe weather, or other dangerous environmental conditions.

When an incident occurs that makes the area outside unsafe, occupants should remain inside the nearest suitable building and take steps to protect themselves from the hazard. Leaving the area could increase exposure to dangerous conditions.

To **shelter in place** means to remain inside a building and use that facility as a temporary place of safety. By taking a few simple protective measures, occupants can often make their location safer and more comfortable until emergency officials determine that conditions are safe and normal activities may resume.

Basic “Shelter-in-Place” Guidance

If an incident occurs and the building you are occupying is not damaged and remains safe, stay inside and move to an interior room or designated shelter area. Remain there until emergency officials or University authorities advise that it is safe to leave.

If the building is damaged or otherwise unsafe to occupy, take essential personal belongings, such as your wallet, keys, identification card, and mobile phone, if they are readily accessible.

Follow established building evacuation procedures by:

- Closing doors behind you, if it is safe to do so.
- Proceeding to the nearest safe exit.
- Using stairways rather than elevators.
- Following all directions provided by emergency responders and University officials.

After evacuating, seek shelter immediately in the nearest safe University building or other location designated by emergency personnel.

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

If police officers, firefighters, Campus Safety personnel, or other emergency responders are on scene, follow their instructions at all times.

How You Will Know to “Shelter-in-Place”

A shelter-in-place notification may be issued through a variety of sources, including Campus Safety, Residence Life and Housing staff, the President's Office, Marketing and Communications, other authorized University officials, local law enforcement agencies, or other emergency response authorities.

Notifications may be communicated using the University's emergency communication systems and other available communication methods to provide timely instructions and updates to the campus community.

How to “Shelter-in-Place”

Regardless of your location, the basic principles of sheltering in place generally remain the same. If a shelter-in-place order is issued, follow the steps below unless directed otherwise by emergency responders or University officials.

1. Move to a Safe Indoor Location

- If you are already inside a building, remain indoors.
- Gather any available emergency supplies and a telephone or mobile device for emergency communications.
- If you are outdoors, immediately enter the nearest safe building or follow instructions provided by emergency personnel.

2. Select an Appropriate Shelter Location

If you must move from your current location, turn off lights as you leave, if practical.

Choose a room that is:

- An interior room whenever possible.
- Above ground level, unless otherwise directed by emergency responders.
- Free of windows or has the fewest windows possible.
- Large enough to accommodate all occupants safely and comfortably. Multiple rooms may be required for larger groups.

3. Secure the Area

- Close and lock all windows, if possible, to improve the seal against outside air.
- Close and secure all exterior doors.

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

4. Shut Down Air Movement

- Turn off air conditioners, heaters, fans, and other equipment that circulates air.
- Close vents and ventilation openings if they can be safely accessed.
- Physical Plant personnel will shut down building ventilation systems as quickly as possible when conditions warrant.

5. Account for Occupants

Prepare a list of all individuals sheltering in the room or area.

- Faculty, staff, Residence Life personnel, or other designated individuals should report the list to Campus Safety.
- If only students are present, a student representative should contact Campus Safety and provide the information.

This information assists emergency responders in accounting for occupants and coordinating assistance if needed.

6. Monitor Emergency Information

Monitor official communications for updates and instructions by:

- Listening to local radio or television broadcasts, if available.
- Monitoring University emergency notifications.
- Following directions provided by Campus Safety, emergency responders, or University officials.

7. Remain Calm and Await Further Instructions

Remain in the shelter area until an official "All Clear" or other instructions are issued by emergency responders or University authorities. Take reasonable steps to remain calm, comfortable, and prepared to stay in place for an extended period if necessary.

Off Campus Sheltering

In the event that an evacuation from campus becomes necessary, many students, faculty, staff, and visitors may choose to leave the area using personal vehicles. However, some individuals may be unable to do so because they do not have access to a vehicle or because their vehicle is inaccessible due to the location or nature of the incident.

When an evacuation is limited to a single building or a specific area of campus, occupants may be directed to relocate to another safe location on campus or to **Regis Square**, as directed by emergency personnel or University officials.

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

If circumstances require the evacuation of the entire campus, the University has established a Memorandum of Understanding (MOU) with **Ricardo Flores Magón Academy** to serve as a designated off-campus evacuation and reunification site. The academy is located at:

Ricardo Flores Magón Academy

5330 Meade Street

Denver, Colorado 80221

Students, faculty, staff, and visitors should follow the directions of Campus Safety personnel, emergency responders, and University officials regarding evacuation routes, transportation arrangements, assembly areas, and reunification procedures.

Emergency Notifications (RU Alert)

The Department of Campus Safety receives reports and information from a variety of sources, including University offices and departments, students, faculty, staff, and members of the public. The University encourages the timely reporting of all crimes, emergencies, and public safety-related incidents to Campus Safety. Prompt reporting helps ensure that accurate information is available for emergency notifications, supports effective response efforts, and facilitates the inclusion of required information in annual crime and safety statistics.

Regis University utilizes a mass notification system to notify the campus community as quickly as possible upon confirmation of a significant emergency or dangerous situation that presents an immediate threat to the health or safety of students, faculty, staff, or visitors.

Reporting Emergencies

Emergencies occurring at the Northwest Denver Campus or the Thornton Campus should be reported immediately to Campus Safety by calling **(303) 458-4122**, or **911**.

Emergency Confirmation and Notification Process

The Department of Campus Safety is responsible for confirming the existence of a significant emergency or dangerous situation occurring on or affecting University property that presents an immediate threat to the health or safety of the campus community.

Campus Safety may verify emergency conditions using information from:

- Campus administrators and University officials;

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

- Local law enforcement, fire, and emergency medical responders;
- Weather monitoring services, including the National Weather Service; and
- Other reliable sources of emergency information.

Once an emergency or dangerous situation has been confirmed, the Director of Campus Safety, Assistant Director of Campus Safety, or their designee will determine the content of the emergency notification. The notification will be based on the nature, scope, and severity of the incident and will provide protective action instructions intended to promote the safety and security of the campus community.

Campus-Wide Distribution

Because students, faculty, and staff may travel between University locations, Emergency Notifications are generally distributed to the entire Regis University community. Each notification will clearly identify the campus or location affected by the incident, such as:

- Northwest Denver Campus
- Thornton Campus

This approach ensures that all members of the University community receive timely information while allowing recipients to quickly determine the relevance of the alert to their location.

To initiate an emergency notification, the Director of Campus Safety, Assistant Director of Campus Safety, or their designee will utilize the University's mass notification system as the primary means of communication. Emergency notifications may be distributed through **RU Alert** using email, text messaging, and voice messaging. Additional communication methods, including face-to-face communication and other available channels, may also be used when appropriate to ensure timely notification of the campus community.

Upon confirmation of a significant emergency or dangerous situation that poses an immediate threat to the health or safety of the campus community, the Director of Campus Safety, Assistant Director of Campus Safety, or their designee will, without unreasonable delay and while considering the safety of the community, determine the content of the notification and initiate the emergency notification process.

An emergency notification may be withheld if, in the professional judgment of responsible authorities or responding emergency personnel, issuing the notification would compromise efforts to:

- Assist a victim;

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

- Contain the emergency;
- Respond effectively to the incident; or
- Otherwise mitigate the emergency.

Emergency notifications will include information about the nature of the threat, the affected location(s), and any protective actions that members of the campus community should take. The University will provide follow-up notifications as necessary to communicate updated information regarding the emergency, ongoing response efforts, protective actions, or changes in the status of the incident. Follow-up notifications will generally be distributed through the RU Alert system using email, text messages, and voice messages. When appropriate, face-to-face communication and other available communication methods may also be utilized.

The notifications will be completed by the Departments listed on the next page, depending on the system being used to communicate.

Regis University automatically enrolls all active University email addresses in the University's Emergency Notification System, RU Alerts. Active Regis University email accounts are used to deliver emergency notifications and cannot be removed from the system while the account remains active.

Emergency notifications may be distributed through multiple communication channels, including:

- University email
- Text messages

Members of the Regis University community may update their notification preferences for text messages at any time. Email notifications, however, remain mandatory for all active University email accounts and cannot be disabled.

To review or update notification preferences, community members may visit **regis.reggroup.com** or access the RU Alerts registration and management portal through the Campus Safety website.

Members of the Larger Community

Communication is a critical part of incident management. Regis University is committed to communicating with parents and the community during emergencies on campus. The Public Information Officer (PIO) serves as the central point for dissemination of accurate, coordinated and timely communications to the affected audiences. Information about Regis University emergency response may also be found in the University's Emergency Management Plan.

In the event of an emergency, parents/guardians, media, local government, private sector, local community, and first responders may access pertinent information via communication channels that will have periodically posted information, including regis.edu.

If there is an immediate threat to the health or safety of students or employees occurring on campus, Regis University will follow its emergency notification procedures. An institution that follows its emergency notification procedures is not required to issue a timely warning based on the same circumstances; however, the institution must provide adequate follow-up information to the community as needed.

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

Timely Warning Notification (RU ALERT)

Under the **Clery Act**, a **Timely Warning** is a campus-wide notification issued when a Clery Act crime has been reported, and the institution determines that the crime represents a **serious or ongoing threat** to students and employees. The purpose is to provide community members with information that will help them protect themselves and prevent similar crimes.

Regis University issues **Timely Warning Notifications (RU Alerts)** to inform the campus community about certain Clery Act crimes that have occurred within the University's Clery Geography and are determined to pose a serious or continuing threat to students or employees. Clery Geography includes On-Campus Property, On-Campus Residential Facilities, Public Property, and certain Non-Campus locations.

The decision to issue a Timely Warning is made on a case-by-case basis by the Director of Campus Safety, Assistant Director of Campus Safety, or designee, taking into consideration the nature of the crime, the continuing danger to the community, and the availability of information that could assist community members in protecting themselves.

When a Timely Warning is deemed necessary, the University will issue the notification as soon as pertinent information becomes available. Timely Warnings are distributed through the University's mass notification system as an **RU Alert**, which may include email and text message notifications. The alert will generally include information regarding the nature of the crime, the location of the incident, available suspect information, and safety precautions when appropriate.

The Department of Campus Safety is responsible for initiating the Timely Warning process and developing the content of the notification. The Director of Campus Safety, Assistant Director, or designee determines whether a Timely Warning should be issued and authorizes its distribution through the University's mass notification system.

When the Emergency Operations Center is activated, the Marketing and Communications Department may assist in disseminating emergency messages and updates through University communication channels, including the University's website and other official platforms.

Because students, faculty, and staff frequently travel between Regis University campuses, Timely Warning Notifications may be distributed to the entire Regis community. Each notification will identify the campus or location relevant to the reported incident to ensure recipients understand the area affected by the alert.

Timely Warning Notifications (RU Alerts) are typically issued for Clery Act crimes.

Crime categories listed in the Clery Act.

Circumstances for Issuing an RU Alert (Timely Warning)

An **RU Alert (Timely Warning Notification)** may be issued for Clery Act crimes reported to the Department of Campus Safety by Campus Security Authorities (CSAs), students, employees, community members, or local law enforcement agencies when the reported crime is determined to pose a serious or continuing threat to the University community. Timely Warnings are evaluated on a case-by-case basis based on the nature of the crime, the continuing danger to the campus community, and the information available to Campus Safety at the time of the report.

Property crimes are assessed individually to determine whether a Timely Warning is warranted. In situations involving a pattern of similar crimes or an identifiable continuing threat, Campus Safety may issue an RU Alert to help community members take precautions and prevent similar incidents. The Director of Campus Safety, Assistant Director of Campus Safety, or designee reviews all available information and determines whether a serious or ongoing threat exists that warrants the distribution of a Timely Warning.

The Department of Campus Safety maintains communication with local law enforcement agencies serving areas where University campuses are located and requests notification of crimes occurring on or near campus that may pose a serious or continuing threat to students or employees.

Timely Warnings are considered based on the specific circumstances of each incident. For example, an assault involving individuals who know one another and where there is no continuing threat to the broader campus community may not warrant a Timely Warning. Similarly, when a crime is reported long after it occurred, the University may determine that a timely notification would no longer effectively protect the community. Reports of sexual assault, dating violence, domestic violence, and stalking are evaluated on a case-by-case basis, considering factors such as when and where the incident occurred, when it was reported, whether a suspect has been identified, and whether a continuing threat to the community exists.

RU Alerts are distributed in a manner that is timely, provides information necessary to promote safety, aids in the prevention of similar crimes, and protects the confidentiality of victims and other affected individuals, consistent with applicable law and University policy.

Individuals who have information regarding a crime or situation that may warrant an RU Alert should contact the Department of Campus Safety at **(303) 458-4122** or visit the **Campus Safety Office, West Hall, Suite 107**.

RU Informed Alerts

RU Informed Alerts are informational communications distributed to the Regis University community to increase awareness of incidents or conditions that may affect campus operations or convenience but do not constitute an immediate or ongoing threat to life, safety, or property. Unlike Emergency Notifications or Timely Warning Notifications, RU Informed Alerts are intended to share important information and provide situational awareness.

Examples of circumstances that may warrant an RU Informed Alert include:

- Telephone, network, or power outages affecting campus operations;
- Weather-related disruptions or campus closures;
- Road closures or traffic impacts affecting access to campus;
- Police or emergency response activity in the surrounding area that does not pose a direct threat to the University community;
- Facility disruptions or service interruptions; and
- Other incidents deemed important for community awareness.

RU Informed Alerts are typically distributed through the University's email system. In circumstances where email service may be disrupted, such as during a telephone or power

Information for the 2026-2027 Academic Year

outage, notifications may also be delivered through text messaging, telephone calls, the University website, or other available communication channels.

The purpose of an RU Informed Alert is to keep students, faculty, staff, and visitors informed of significant campus-related issues while providing timely and accurate information regarding operational impacts and appropriate actions, if any, to be taken.

CAMPUS SEX CRIMES PREVENTION ACT

The **Adam Walsh Child Protection and Safety Act of 2006** (42 U.S.C. § 16921) was enacted to protect children from sexual exploitation and violent crime, prevent child abuse and child pornography, and promote public safety through a national sex offender registration and notification system.

The **Campus Sex Crimes Prevention Act of 2000** requires institutions of higher education to advise the campus community of where information concerning registered sex offenders may be obtained. The law also requires registered sex offenders to provide notice of enrollment or employment at institutions of higher education as required by state law.

In Colorado, sex offender registration information is maintained by the **Colorado Bureau of Investigation (CBI)** through the Colorado Sex Offender Registry. Members of the University community may access information about registered sex offenders in Colorado through the Colorado Bureau of Investigation's website.

Additional information regarding registered sex offenders in Colorado is available at:

CAMPUS CRIME STATISTICS

The following crime statistics are published in compliance with the **Jeanne Clery Campus Safety Act (Clery Act)**. The Clery Act requires colleges and universities that participate in federal financial aid programs to collect, classify, and disclose information regarding certain

Information for the 2026-2027 Academic Year

crimes reported to Campus Safety, Campus Security Authorities (CSAs), and local law enforcement agencies within the University's Clery Geography.

The statistics contained in this report represent the three most recent calendar years for which data is available and are intended to provide students, employees, and prospective community members with information regarding campus safety and security.

Regis University encourages all members of the campus community to promptly report criminal incidents, suspicious activity, and safety concerns. Reports are important for ensuring an accurate accounting of crime statistics and for helping the University identify and address potential safety concerns.

Individuals wishing to report a crime or provide information for inclusion in the University's Annual Security & Fire Safety Report may contact the Department of Campus Safety at:

Clery Geography and Crime Statistics Reporting

The location of crimes included in Regis University's Annual Security & Fire Safety Report is determined by **Clery Geography**, as defined by the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act. Regis University collects and reports Clery Act crimes that occur within its Clery Geography and are reported to Campus Safety, a Campus Security Authority (CSA), or a local law enforcement agency. Clery Geography includes:

- **On-Campus Property**
- **On-Campus Student Housing Facilities**
- **Non-Campus Property**
- **Public Property**

The University annually reviews and updates its inventory of Clery-reportable properties to ensure compliance with federal reporting requirements.

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

Hazing Statistics

Pursuant to applicable federal reporting requirements, hazing offenses may be reportable regardless of whether the incident occurred within Clery Geography. Hazing incidents are evaluated and documented based on the statutory definition of hazing, and each incident is counted as a separate occurrence.

When required by law, hazing incidents occurring at off-campus locations may be disclosed in accordance with applicable reporting requirements. However, such incidents may not be included within Clery crime statistics if they do not occur within Clery Geography.

Note Regarding Private Property

Certain private residences, businesses, and other privately operated facilities may be located on land owned by Regis University or within areas otherwise associated with the University's Clery Geography. However, these properties are not included as Clery-reportable locations unless they are owned or controlled by the University and used in direct support of, or in a manner related to, the University's educational purposes.

Accordingly, crimes occurring within privately owned residences, commercial establishments, or other unaffiliated properties are generally not included in the University's Clery crime statistics. These properties are private entities, are not operated by the University, and are not intended for the exclusive or primary use of Regis University students, faculty, or staff in support of the University's educational mission.

Definitions of Clery Geography

The following definitions are used by Regis University to identify locations for which crime statistics must be collected and reported in accordance with the **Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (Clery Act)**.

On-Campus Property

On-Campus Property includes any building or property owned or controlled by Regis University within the same reasonably contiguous geographic area and used in direct support of, or in a manner related to, the University's educational purposes, including residence halls. It also includes certain buildings or properties owned by the University but controlled by another entity, provided they are frequently used by students and support institutional purposes, such as food service or retail operations.

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

On-Campus Student Housing Facilities

On-Campus Student Housing Facilities are a subset of on-campus property and include any student housing facility owned or controlled by the University, or located on property owned or controlled by the University within the reasonably contiguous geographic area that comprises the campus. For Clery statistical reporting purposes, a reportable crime occurring in an on-campus student housing facility is counted both as an on-campus crime and as a crime occurring within on-campus student housing.

Public Property

Public Property includes all public thoroughfares, streets, sidewalks, parking facilities, and similar public areas that are located within the campus or are immediately adjacent to and accessible from campus. At Regis University, Clery-reportable public property includes public roadways and other qualifying public areas adjacent to University property.

Non-Campus Property

Non-Campus Property includes:

- Any building or property owned or controlled by a student organization that is officially recognized by the University; or
- Any building or property owned or controlled by the University that is used in direct support of, or in relation to, the University's educational purposes, is frequently used by students, and is not located within the same reasonably contiguous geographic area as the main campus.

Preparation of the Annual Security & Fire Safety Report

This **Annual Security & Fire Safety Report (ASFSR)** is prepared through a collaborative effort involving multiple University departments, including Academic Affairs, Student Affairs, Athletics, Human Resources, Student Health Services, the Office of the Title IX Coordinator, and the Department of Campus Safety.

Crime statistics for the **Northwest Denver Campus** are compiled from reports received by the Department of Campus Safety, Campus Security Authorities (CSAs), the Office of Student Life, the Office of the Title IX Coordinator, and local law enforcement agencies. Statistics also include disciplinary referrals and incidents reported to University officials that may not have been reported directly to Campus Safety but are required to be included for Clery Act reporting purposes.

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

Crime statistics for the **Thornton Campus** and other University-owned, leased, or controlled locations used for academic programs, student activities, or other institutional purposes are compiled from reports made to the Department of Campus Safety, designated personnel at those locations, Campus Security Authorities, the Office of the Title IX Coordinator, and applicable law enforcement agencies.

The Department of Campus Safety is responsible for collecting, classifying, and publishing crime statistics in accordance with the requirements of the **Jeanne Clery Campus Act (Clery Act)**. Statistics included in this report are reviewed for accuracy and are derived from reports made by University officials and law enforcement agencies with jurisdiction over the Regis University's Clery Geography.

Note Regarding Crime Statistics

Crime statistics included in this Annual Security & Fire Safety Report are based on reports of alleged criminal incidents received by Campus Security Authorities (CSAs), the Department of Campus Safety, local law enforcement agencies, and other reporting officials as required by the Clery Act. A reported crime does not need to be investigated by law enforcement, Campus Safety, or a CSA, nor does a finding of responsibility or criminal conviction need to occur, for the incident to be included in Clery Act crime statistics.

Availability of the Annual Security & Fire Safety Report

This Annual Security & Fire Safety Report (ASFSR) is available to the public on the Regis University website.

Each year, on or before October 1, Regis University distributes an email notification to all current students and employees announcing the availability of the ASFSR and providing a direct link to the report. Prospective students and prospective employees are provided with a notice of the report's availability and access to the report through the University's admissions, enrollment, and employment application resources.

Unfounded Crime Reports

Federal regulations require institutions to disclose the number of crime reports that were determined to be unfounded and subsequently excluded from Clery Act crime statistics during each of the three most recent calendar years. An institution may classify a crime report as unfounded only after a full investigation and only when sworn or commissioned law enforcement personnel make a formal determination that the report is false or baseless.

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

For Clery Act reporting purposes, a crime report may be designated as unfounded only when evidence obtained through a complete and thorough investigation establishes that the reported crime was not attempted or committed in any manner. The recovery of stolen property, the refusal of a victim to cooperate, the decision not to prosecute, or the absence of an arrest does not qualify a report as unfounded.

Because the Regis University Department of Campus Safety is not a sworn or commissioned law enforcement agency, it does not have the authority to unfound crime reports. Any decision to classify a crime report as unfounded must be made by the appropriate sworn or commissioned law enforcement agency with jurisdiction over the incident.

FIRE SAFETY REPORT

FIRE SAFETY STATEMENT

As part of its annual compliance with the Jeanne Clery Campus Safety Act (Clery Act), Regis University publishes this Fire Safety Report. The report provides information regarding the University's fire safety practices and standards, including fire statistics for residential housing facilities. These statistics include the number of fires, the cause of each fire, any fire-related injuries or deaths, and the value of property damage resulting from fires.

This report is available through the Department of Campus Safety. Copies may be requested by contacting the Department of Campus Safety at (303) 458-4122 or by emailing safety@regis.edu.

For the purposes of this report, a fire is defined as any instance of open flame or other burning occurring in a location not intended to contain it or burning in an uncontrolled manner. If a fire occurs on Regis University property, community members should immediately call 911 to report the emergency. After contacting emergency responders, individuals should notify the Department of Campus Safety at (303) 458-4122. Community members are also encouraged to report any fires that have been extinguished but were not previously reported so the University can evaluate whether they should be included in its annual fire statistics.

Regis University maintains compliance with applicable fire and life safety standards in accordance with National Fire Protection Association (NFPA) 72 requirements. This compliance includes annual inspections and testing of fire detection systems, such as smoke detectors, heat sensors, and horn/strobe notification devices, as well as fire suppression systems, including sprinkler systems, fire extinguishers, and kitchen hood suppression systems.

In addition to these inspections, the University conducts emergency evacuation drills regularly to familiarize building occupants with proper evacuation procedures and emergency response protocols.

The University's Fire Captain Program was established as part of its ongoing commitment to providing a safe environment for students, faculty, staff, and visitors during emergencies. Under this program, at least one trained representative from each University department is designated to promote safety awareness, support emergency preparedness efforts, and provide leadership during emergency situations.

The University conducted unannounced fire evacuation drills in October 2025 to ensure that all facilities on the Northwest Denver and Thornton campuses successfully completed an evacuation

exercise. All buildings met evacuation requirements, and no facilities required additional testing or follow-up drills.

In addition to these planned exercises, unscheduled evacuations occurred throughout the year in response to fire alarm activations. Comprehensive fire emergency and evacuation procedures for students, faculty, staff, and visitors are outlined in this report.

FIRE EVACUATION EVALUATION

During annual fire drills the inspection team evaluates how occupants evacuate buildings following the evacuation procedures identified below. In 2025 there were 19 fire drills conducted.

REGIS 2025 FIRE DRILLS OBJECTIVES

Fire drill objectives are determined with the input of Physical Plant. The objectives in 2025 were to:

1. Evaluate the effectiveness of evacuation procedures and determine necessary changes or adjustments to procedures to improve performance.
2. Determine whether students/faculty/staff understand the proper assembly areas for each designated building.
3. Demonstrate timely evacuation of all buildings. Times equal to or better than six minutes were the goal.
4. Test the fire alarm systems and evaluate audible alarms throughout each facility to ensure that all occupants can hear and/or see the alarm indicators throughout the building.

The objectives were met in 2025.

Regis Fire Report and Fire Log

The University did not have any reported fires in Residential Buildings in 2025.

Plans FOR FUTURE Improvement to Fire Safety

The University follows the National Fire Protection Association (NFPA) guidelines in its use, maintenance, and inspection of fire systems. *There were Updates to three Fire Alarm Control*

Panels (FACP) to our facilities in 2024. The University does have planned future improvements *FACPs to meet fire codes* in the future in fire safety at this time.

- *Fire Alarm Control Panel in Fine Arts was replaced in 2025*

Fire Drills

To help ensure that students residing in on-campus housing facilities are prepared to respond appropriately during an emergency, Regis University conducts at least one fire drill annually in each residential housing facility. Additional evacuation exercises may occur throughout the year in response to fire alarm activations.

Fire drills are conducted without prior notice to occupants and are designed to familiarize residents with evacuation procedures and emergency response expectations. During these drills, the University's response procedures and occupants' evacuation performance are evaluated to help identify opportunities for improvement and enhance overall campus safety preparedness.

Fire Safety Education

Fire Safety Education and Training

Prior to the start of each fall semester, Residence Life housing managers receive fire safety education and training from the Environmental Health and Safety Office (EHSO) and the City Fire Department's Technical Services Division. Training topics include fire alarm response procedures, fire drills, building evacuations, designated assembly areas, and the proper use of portable fire extinguishers.

Physical Plant personnel receive hands-on fire extinguisher training and practical extinguisher-use exercises on a biennial basis to maintain proficiency in emergency response procedures.

Regis University is committed to promoting fire safety awareness throughout the campus community. Fire safety policies, procedures, and educational materials are provided to students, faculty, and staff. In addition, the University conducts annual fire safety training for designated Emergency Coordinators from each department. These coordinators serve as departmental safety representatives and are responsible for sharing fire safety information, emergency procedures, and preparedness resources with their respective departments.

Community Development Assistance also receive fire safety training and are responsible for educating residents on fire prevention practices, evacuation procedures, emergency reporting requirements, and residence hall fire safety expectations.

Procedures for Students and Employees Should Follow in Case of Fire in Residence Halls and Campus Buildings

1. **If you discover or suspect a fire, immediately evacuate the building using the nearest safe exit.** Do not attempt to extinguish a fire unless you have received appropriate training and can do so safely. Activate the nearest fire alarm pull station, if available, and notify others as you evacuate by alerting occupants and knocking on doors when it is safe to do so. If the fire alarm does not activate, warn others by shouting a clear evacuation message.
2. **Once outside, proceed to the designated assembly area.** Assembly locations are identified on building evacuation maps posted near building exits. Remain at the assembly area until further instructions are provided.
3. **Individuals with mobility impairments should proceed to the designated Area of Rescue Assistance, if safe to do so.** Those requiring assistance should remain in the designated area and await emergency responders or authorized personnel.
4. **If it is safe to do so, assist others who may need help evacuating.** This may include individuals with disabilities, injuries, or other special needs. If you are unable to provide assistance, notify a University staff member, firefighter, law enforcement officer, or Campus Safety officer of the individual's location as soon as possible.
5. **Call Campus Safety at (303) 458-4122** and provide as much information as possible regarding the fire or alarm condition. Do not assume that someone else has reported the incident or that the alarm system has automatically notified Campus Safety.
6. **Do not re-enter the building for any reason** until emergency responders or Campus Safety personnel have declared the building safe and authorized reentry.
7. **Report all fires to Campus Safety**, regardless of whether the fire is active or has already been extinguished. Reporting all fires helps ensure appropriate follow-up, compliance with fire safety reporting requirements, and accurate fire statistics.

Evacuation Procedures

If a fire alarm or smoke detector alarm sounds, immediately evacuate the building using the nearest safe exit. When available, use stairwells rather than elevators and proceed to the designated evacuation assembly area identified for the building, or move at least 300 feet away from the structure.

2026 Annual Security and Fire Safety Report

Information for the 2026-2027 Academic Year

Once outside, remain at the assembly area and do not re-enter the building until authorized to do so by Campus Safety personnel, the Fire Department, or other emergency responders.

The cooperation of all occupants during an evacuation is essential to ensure the safety of the campus community. Failure to evacuate promptly when a fire alarm sounds or when directed to do so may result in disciplinary action in accordance with University policies.

Portable Electronic Devices, Smoking, and Open Flame Policies

Propane and charcoal grills are prohibited inside residence halls and may not be used within 25 feet of any University building. Propane tanks, fuel cylinders, and other compressed gas containers may not be stored inside any campus building or within 25 feet of a building.

The University strongly encourages the use of UL-listed surge protectors with electronic devices to help reduce the risk of electrical fires and equipment damage.

In accordance with University policy, smoking and the use of tobacco products are prohibited inside all campus buildings. The use of open flames, including candles, incense, and similar ignition sources, is prohibited in residence halls except as specifically authorized by the University.

Smoking

Regis University is committed to providing a healthy and safe environment for students, faculty, staff, and visitors. Smoking and the use of tobacco products are prohibited in all University-owned or University-controlled buildings, including residence halls, offices, classrooms, and dining facilities, as well as within 25 feet of building entrances, exits, operable windows, and air intake systems.

Smoking and the use of tobacco products are also prohibited in all University-owned and operated vehicles and in designated outdoor gathering areas, including outdoor classrooms and organized campus events.

Individuals who choose to smoke must do so in designated outdoor areas and are expected to dispose of smoking materials properly in approved receptacles. The improper disposal of cigarettes, cigars, or other smoking materials creates a significant fire hazard and is prohibited.

No member of the University community should be exposed to environmental tobacco smoke in designated smoke-free areas or workspaces. The University will take reasonable steps to address violations of this policy and eliminate exposure to secondhand smoke. In matters involving the smoking policy, the health, safety, and well-being of non-smokers will take precedence.
