STUDENT HOUSING AND  
RESIDENTIAL ENGAGEMENT

# LIVE *Your* WAY

.....▶ WE'LL MAKE IT EASY.

Living on campus is just more convenient, all around. Pick your residence type, your roommates (or none) and build your life to support your education — with dedicated space on campus for when you need some “me time.”

## LIVE SMART.

Studies show that students who live on campus academically out-perform their peers who live off campus and are more satisfied with their college experience.

## LIVE CLOSE.

Cut out the hassle of driving on unplowed roads during Colorado snowstorms, and save time and frustration hunting down a good parking spot.

## LIVE CONNECTED.

For the full college experience you've always wanted, living on campus is essential. When you live on campus, you'll become part of a community and be just steps away from classes and campus activities.
