

WHY STUDY ABROAD IN THE FALL?

GREATER CHOICE

You have a significantly improved chance of being accepted to your top-choice program if you plan to study abroad in the Fall.

LESS STRESS

Fall SA students have all summer to earn & save money for their trip abroad. They have more time to get immunizations and passport/visa documents up to date. Spring SA students must complete all of these tasks between the midterm and final exam period of the Fall semester.

BETTER SCHOLARSHIP ODDS

You have a better chance at scholarships if you apply for Fall semester study abroad.

HAPPIER HOMECOMING

Returning from abroad is tough; Spring returnees must wait a full 3 months to reconnect with their Regis community.

Returning after a Fall semester abroad coincides with holiday gatherings and opportunities to reconnect with family & friends, making for a nicer "welcome" home than returning at the start of summer, when friends and family tend to disperse.
