

AGILE TECHNOLOGIES
GRADUATE ACADEMIC CERTIFICATE

The graduate academic certificate in Agile Technologies provides students an opportunity to learn current trends in Agile Scrum approaches to project management, software development and testing. The student experience in this program focuses on practical hands-on assignments where students become members of teams involved in simulating the project environment. Students use Agile Scrum techniques and roles, and apply Agile Scrum facilitation skills, to simulate software product development. If you work in, or are interested in, project management, product development, software development, software quality assurance or testing, obtaining Regis University's graduate certificate in Agile Technologies is a great way to build upon your knowledge, stand out in an increasingly competitive job market, and make yourself a more valuable resource.

CERTIFICATE REQUIREMENTS

Courses are offered 100% online

Course Requirements (12 credit hours)
