

**CYBERSECURITY**  
GRADUATE ACADEMIC CERTIFICATE

The world's dependence on computers and information systems continues to deepen, creating a growing but increasingly competitive market for information technology professionals – especially those in the field of cybersecurity. Prepare yourself by earning a graduate certificate in cybersecurity from Regis University. In this program you will explore computer and network forensics, information enterprise assurance, securing and protecting systems, and applications and data. Regis University is designated as a Center of Academic Excellence in Information Assurance Education by the National Security Agency, and the cybersecurity curriculum is modeled on guidelines and recommendations provided by the Committee on National Security Systems (CNSS) 4000 training standards, (ISC)2 Ten Domains of Knowledge, ISACA and NIST workforce development standard.
