

DATA SCIENCE

GRADUATE ACADEMIC CERTIFICATE

The graduate academic certificate in Data Science introduces students to manipulating various sources of data, statistical data analysis techniques including machine learning, and techniques for working with Big Data. Students will learn how to create visualization products that communicate the results of their analysis. The courses also introduce students to the Hadoop ecosystem of software products and to techniques for the discovery and communication of meaningful patterns in data. The student experience in this program focuses on practical hands-on assignments using today's software tools for data acquisition, data manipulation, data analysis, prediction, and visualization.

CERTIFICATE REQUIREMENTS

Courses are offered 100% online. A campus cohort will be offered in the Fall of 2018 and the Spring of 2019.

Course Requirements (12 credit hours)

- ▶ MSDS 600 – Introduction to Data Science
- ▶ MSDS 610 – Data Engineering
