

EXECUTIVE INFORMATION TECHNOLOGY GRADUATE ACADEMIC CERTIFICATE

The graduate academic certificate in Executive Information Technology explores methods and practices for positioning technology to achieve organizational objectives and contribute to positive organizational transformation. By studying the ethical implications of technology, students are directed to look at positive, and potentially harmful, applications of technology to maximize the positive and avoid or mitigate negative aspects. After studying the topics of strategic information technology and ethics in IT, students may choose two courses from a range of applicable curricula including business process engineering, supply chain management, knowledge management, IT project management, emerging technologies and more.

CERTIFICATE REQUIREMENTS

Courses are offered 100% online.
