

## **MOBILE SOFTWARE DEVELOPMENT**

### **GRADUATE ACADEMIC CERTIFICATE**

Regis University's graduate academic certificate in Mobile Software Development is comprised of two Android courses and two iOS courses. The first course of each sequence focuses on the development of the handset user interface, whereas the second course focuses on the back-end integration of external resources using web services. The Mobile Software Development certificate is designed for software engineers, software developers, software architects, and other software professionals who aspire to move into advanced technical positions and senior technical leadership positions, expanding the value they bring to their organizations. The primary emphasis is on current mobile software development principles, best practices, techniques, and technologies that enable one to actively contribute to the productivity and competitiveness of the organization.

### **CERTIFICATE REQUIREMENTS**

Courses are offered 100% online. On campus classes are available at the DTC campus
