

MASTER OF SCIENCE IN INFORMATION TECHNOLOGY MANAGEMENT

DEGREE PROGRAM

The Master of Science degree in Information Technology Management is designed for leaders, programmers, developers, engineers, and other knowledge workers who aspire to lead technical teams and expand the value teams bring to their organization. We emphasize moving technology out of the classroom and into the real-world, assessing the impact of technology, defining the role of information literacy in decision-making, and making the most of technology for productivity and the improvement of local and global societies.
