

M.ED. SPECIAL EDUCATION

Regis University's M.Ed. in Special Education is designed for educators seeking the expertise needed to effectively teach students with a wide variety of special needs, ages five to 21, in the state of Colorado. The Teacher Education program is based on the philosophy that learning to be a teacher is best accomplished when an understanding of theory and practice is balanced by the knowledge gained through diverse experience in schools. Foundational courses will introduce you to theories in education. Content (subject area) courses will ensure that you have the depth of knowledge needed to teach in your endorsement area. Your professional sequence courses will emphasize field placement and experiential learning, and your student teaching semester will be your final culmination in applying what you have learned.

MASTER'S DEGREE WITH LICENSURE

8-week courses delivered both online and on-campus,
