THE HUMAN EXPERIENCE

SOME FURTHER QUESTIONS FOR YOUR CONSIDERATION:

From Grassroots Films of Brooklyn, New York comes THE HUMAN EXPERIENCE – the story of a band of brothers who travel the world in search of the answers to burning questions: Who am I? Who is Man? Why do we search for meaning? Their journey brings them into the lives of the homeless of New York City, orphans and disabled children of Peru, and abandoned lepers in the forests of Ghana, Africa. What the young men discover changes them forever. Through one-on-one interviews and real life encounters, the brothers are awakened to the beauty of the human person, and resilience of the human spirit.

Note: See pg. 6 of the orientation schedule for date and time of this session.

1. Who am I?
2. What does it mean to be human? Why do we search for meaning? Where do we find it? How do we create it?
3. How do I articulate my own “search for meaning”? What do I wonder and worry about?
4. In my mind, what constitutes an “authentic, meaningful life”?
5. What is appealing about the physical and emotional journey these young men were on? Metaphorically, or literally, what can I do to take such a journey during my time at Regis?
6. What assumptions did I make about these young men at the very beginning of the film? Were any of my assumptions challenged/ untrue? What assumptions do I believe people make about me? How many of them are accurate? What are some consequences about making assumptions about others without getting to know them?
7. What walls do I put up between myself and others/the world? What can I do to lower those walls and let more diverse people and experiences into my life?

NON-PROFIT DESCRIPTIONS:

Healing Waters International:
Healing Waters International provides safe water solutions in communities where poverty is compounded by contaminated water. They provide poor communities with a water treatment solution, health and hygiene education, and a local ownership model so that long-term transformation takes root. To date, they have installed more than 130 water systems and serve more than 135,000 people per day with safe drinking water. They currently operate
in the Dominican Republic, Mexico, Guatemala, Haiti and El Salvador. Their mission statement is: Healing Waters International empowers local ministry partners to bring physical, social and spiritual transformation to poor communities by providing sustainable, safe water solutions.
